THE BROOKLYN SCANDAL.

The Examination of Mr. Tracy Concluded.

Mrs. Tilton Not to be Called on to Testify.

NEW YORK, April 30, 1875.

Mr. Beecher was not present at his trial to-day, but his wife and son were. There was a noticeable increase of lookers-on. The cross-examination of Mr. Tracy was continued as follows: I had a conversation with Mrs. Moulton at night; her husband made a short statement before the committee; I learned that night that a short statement had been proposed instead of the long one, and that Mrs. Moulton was instrumental in preparing it. [Shown a paper]. I presume this is the statement presented on the evening of August 10.

Witness' attention was called to the conversation with Mrs. Moulton on the 10th of August, and witness said he understood the conversation was confidential and he did not desire to make it known unless the lady should desire it; he said, however, it was not the conversation in which he (witness) was acting as counsel for the lady.

The witness continued: I had a conversation with Mrs. Moulton, but did not tell her she had

Saved The Old Man

nor advise her to burn her husband's long statement, telling her that if it were published it would cause her husband's ruin financially and socially. The short statement of Moulton to the Investigating Committee was read by Mr. Beach.

I was present at the meeting of the committee when this statement was presented by Moulton; I had a short interview with him at Storrs' house, before he presented this statement; he told me he would not present the long statement, but he had a shorter one as a substitute; I think he communicated its substance to me; Mr. Munson was present at that interview; I had a few interviews with Mrs. Moulton prior to this, but in one of these I never said to her to

Kick Tilton Out of the House

and burn the documents, as he would bring her family into trouble and disgrace; I saw Mr. Richards when he was before the committee; I did not ask him in the interview before he went before the committee if his sister admitted having committed adultery; he said he would communicate to me nothing of what he knew in regard to the matter. I had

An Interview with Bessie Turner

at Mrs. Ovington's before she went before the committee; I met her for the first time that afternoon; I had a conversation with her that evening in the parlor; I think I knew a gentleman named A. B. Martin, but I did not see him during that interview; I do not think the conversation lasted more than an hour, but I would swear it did not last two hours; after conversation with Mr. Woodruff last summer about the money payments, he reproached me for having told Moulton; I do not remember that I was present when Moulton was summoned before the committee or advising him not to go before that body, and I think that the papers sent by Mr. Butler were returned, as I directed one of my young men to do so; I received no letters from him asking for their return; I was not connected in this scandal with the church proceedings, but was with the deliberations of the Investigating Committee. During some portion of this scandal I have been

The Active Friend of Mr. Beecher,

more so since the publication of the Bacon letter; I do not recollect of writing articles for the papers before the Bacon letter made its appearance. I do not recall having given information to any prominent journals about the matter before the Bacon letter; since the Bacon letter I published two interviews of mine in the papers, but I have not prepared articles for publication favorable to Beecher; I have not dictated or published an article on any subject since 1871, but during this time I have talked, however, with newspaper men on the subject as to the phrases in it, and they have asked my views of it; the first interview I had with Beecher was the week after the interview with Moulton, in November, 1872; I never had a conversation with the editor of a leading paper in this city, after the Bacon letter, to write favorably or publish favorably about Beecher; I believe I talked with John Russell Young in regard to the course his paper should pursue in the matter. At the close of Sunday's interview with Moulton I think I suggested that the papers ought to be destroyed, and Tilton objected to it.

A Prediction.

I made the remark at one of the interviews with Tilton, if the "True Story" was published, it would ruin him, his wife and Beecher; when I said this I thought that if this scandal was published and the matter cause an investigation, it would be the ruin of all parties; I supposed this charge would ruin him if Tilton was supported by his wife, even though he was able to assert his innocence; I labored to have the documents extinguished and the scandal killed, so that it should never come to life again after the Investigating Committee was appointed, and I will swear that I did not labor to have the papers destroyed, though I labored to suppress the documents.

Re-Direct Examination.

I understood at this later stage that if the papers were destroyed it would add fuel to the flames, as part of them had already been published. It was a source of anxiety to me lest any of these papers should be destroyed, and I made efforts to discover if any of them were destroyed; the manner in which I labored to destroy the papers before this was by means of conversation with Moulton or Tilton; at the Sunday interview Moulton kept silent when I advised the destruction of the papers, but at a subsequent period he expressed his intention of not following my advice; I had several interviews with Moulton prior to the 10th of August; I never said in substance that she ought to kick Tilton out of doors, and kicking was not used; I do not recall using an expression conveying the import of kicking prior to the interview. I never said to Mrs. Moulton that the papers should be destroyed, else they would destroy Moulton and his family; nothing of this kind occurred at any of these interviews that I remember of; there was a talk between Mrs. Moulton and myself after the Bacon letter came out as to

The Evil

which would be done to society if this matter came out; I remember an occasion in which I considered the subject of getting an injunction to prevent the papers from being destroyed; it was after Tilton's sworn statement was published; there was no talk between Mrs. Moulton and myself, on the 10th of August, about burning the papers; but there was a talk about the desirability of burning them at an earlier period; nothing was said about their destruction in the future; there was a conversation about the substitution of a short statement for the long one. In a conversation with Mr. Richards, when he was going before the committee, I told him who I was, and that I would conduct his examination; he said he had nothing to say, and would decline to answer any questions put to him by the committee, on the ground that this was a family matter, and he would not have it drawn out before the committee. I said he would be asked if his sister had committed adultery, and he made no answer or refused to answer. It would put his sister in a bad position. He thanked me for this suggestion, and then went before the committee and declined to appear before them for examination, and then went off. Beecher was not a party to the interview between General Butler and myself on the 11th of August at my lodging house. Beecher was not in the house then, and I was not acting for him. In regard to the interview at the Fifth Avenue Hotel. Beecher knew nothing about it. I was counsel for Woodruff and Robinson in a Government matter, which did not come to litigation. At no time in this examination have I given any information about these litigations of the firm.

Mr. Evarts here announced that the defense rested.

The Question of Mrs. Tilton Testifying.

Mr. Beach rose, and said it was due to his side to state that they made no objection to the other side producing Mrs. Tilton in this suit, and would waive all objections and interpose no barrier to it. Although she was an incompetent witness under the statute, they consented on their part that the other side could use Mrs. Tilton as a witness if they desired to do so.

Mr. Evarts said it had never been a serious question with them whether Mrs. Tilton would be a witness, as they knew the law was against it. Now, if Mrs. Tilton could at any time have been admitted, there were grave questions to be considered, and that if his client needed any further evidence, it would be his duty to adduce such evidence. They had not been brought to any point in which they were led to consider the force of the evidence.

Mr. Beach said that in his view of the policy of the law, the counsel was mistaken in the intent of the law as to the propriety of allowing the wife to defend herself. It was not the policy of the law to forbid that adverse position, but he only mentioned this matter first, so that if the counsel desired to produce this lady they were at perfect liberty to do so.

Mr. Evarts said he did not believe the consent of the counsel in opposition to him made the wife a competent witness.

Judge Neilson said there was no question about the allowability of the other side to offer this lady as a witness. It would be a very trying position for her, and, on the whole, he was glad the lady was not offered as a witness.

The Court here took the usual recess.

Rebutting Testimony.

After the recess Chas. C. Stanley and G. W. Maddox were called in rebuttal. They testified that Tilton was not with Mrs. Woodhull in the Rossel procession.

John Swinton was next called. He testified: I reside in New York, and am connected with Theodore Tilton, and knew him slightly in 1871. I also know Mrs. Woodhull and Miss Claflin by sight. I remember the Rossel procession, and was in it in company with Tilton. We walked arm-in-arm together. I joined the procession at Eighth street, and Tilton was with an old gentleman, whom I think he introduced to me as Mr. Gregory. I did not see Mrs. Woodhull or Miss Claflin during the procession. Tilton was with me during the whole line of march, and we were walking arm-in-arm the whole time. When the procession ended I went with Tilton, and we parted at Fourteenth street and Union square, and I did not then see Mrs. Woodhull or Miss Claflin.

Cross-examined.

I did not suppose when I went to the procession that Tilton would be in it. I was surprised to see him there.

Mr. Beach at this point said that if it would be convenient to the other gentlemen, some members of the jury would like an early adjournment.

OSHKOSH.

The Prospects of the Stricken City Said to be Already Brightening—Business Blocks to be Rebuilt—Insurance Men Looking After Their Interests—500 Dwellings and 69 Business Houses Destroyed—The Loss About \$2,500,000.

CHICAGO, April 30.—The *Times'* special from Oshkosh says the prospect at that city is already brightening, and the prospects are that before winter a majority of the business blocks will be rebuilt. The debris is cleared away from the principal streets, which are thronged with visitors, who have come to see the ruins from all directions. Insurance men are present from all parts of the country. They do not take a discouraging view of the conflagration as a general thing, and not a few have declared they will stand ready to renew their risks. The structures burned down were generally pretty well insured, and are owned by men who can afford to rebuild.

The vaults of the First National Bank were opened to-day, and the contents found intact. Sixty-nine business structures were destroyed, and about half of these will be rebuilt immediately.

The police to-day made a careful count, and found that large and small, the sum total of dwellings destroyed is about five hundred. These are valued at an average of \$2,500, which gives an aggregate loss of \$1,250,000, which is probable nearer the correct figure. The loss on business houses is about \$1,000,000, and on the lumber interests from \$200,000 to \$250,000, making a total of about two and a half millions, on which the insurance is fully one million, or fifty per cent. of the loss. The agency that did the most business lost all its books, but have nearly arrived at the correct figures of their losses.

The Insurance.

CHICAGO, April 30.—The following insurance companies are known to have lost by the Oshkosh fire, in addition to those already sent: Mercantile, Chicago, \$1,200; Allemannia, Pittsburgh, \$5,000; Glens Falls, \$3,000; Black River, \$2,000; Atlas, Hartford, \$15,000; Niagara, New York, \$25,000; German-American, \$6,500; Commercial, St. Louis, \$3,000; Etna, Hartford, \$40,000; Home, New York, \$50,000; Liverpool, London and Globe, \$50,000; Mellville, N. J., estimated at \$6,000.

Later.—The following are the amounts sustained by each company, as nearly as most diligent inquiry can fix them, that is, the figures that will be forwarded to the main offices: Home, N. Y., \$100,000; Ætna, Hartford, \$80,000; North American, Philadelphia, \$70,000; London, Liverpool & Globe, \$60,000; Phœnix of Hartford, \$45,000; Springfield, Mass., Fire & Marine, \$43,000; Continental, New York, \$40,000; Northwestern National, Milwaukee, \$44,000; North British Mercantile, \$30,000; Hartford of Hartford, \$50,000; New Underwriters, \$30,000; Allemania, Pittsburgh, \$25,000; Madison Mutual, \$20,000; Phoenix, Brooklyn, \$21,500; Niagara of New York, \$17,000; Orient, Hartford, \$16,500; German American, New York city, \$25,000; Lancashire of England, \$20,000; Penn of Philadelphia, \$10,000; Pennsylvania, \$15,000; Fire Association of Philadelphia, \$15,000; People's of Memphis, St. Paul Fire and Marine, Connecticut of Hartford, and Atlas of Hartford, \$10,000 each; Fire and Marine of Detroit, and Brewers of Milwaukee, \$8,000 each; Citizens of Newark, New Orleans Association, Franklin of Wheeling, and Melville, New Jersey, \$6,000 each; Home of Columbus, \$6,800; Planters of Memphis, Black River of Watertown, America of Pittsburgh, National of Hartford, Faneuil Hall of Boston, Fireman's of San Francisco, and Franklin of Philadelphia, \$5,000 each; St. Joseph of Missouri, \$3,600; Traders of Chicago and Globe of Chicago, \$3,000 each; Merchants of Newark, \$2,000.

Outside the lumber interest the insurance is about 50 per cent. The losses among heavy losers are James & Stelle, \$90,000, insurance \$7,100; R. L. Bigger, \$70,000, insurance \$40,000; McKey & Folds, \$35,000; Clark & Forbes, \$40,000, insurance \$21,000; S. M. Hay & Bro., \$45,000; R. P. Watson, \$40,000, insurance \$10,000; Cell & Rogers, \$25,000.

A Relief Committee

has been organized, and substantial assistance for the afflicted is arriving from Fon du Lac and other neighboring cities. Last evening, at a meeting of the Council, the fire limits were pushed forward in the direction in which fire always threatens. The object is to take the saw and planing mills out of the locality.

LOUISVILLE.

Vice President Wilson on a Tour—Two Little Boys Burned to Death.

LOUISVILLE, Ky., April 30.—Vice President Wilson arrived in the city this morning, and during the day has received a large number of calls from prominent gentlemen of both political parties. To-night he is given a reception by Gen. J. M. Harland, and to-morrow goes to Frankfort as the guest of Col. Stoddart Johnson. From Frankfort he will go to Lexington to visit John C. Breckinridge, who, as Vice President, presided over the Senate during one of Mr. Wilson's earliest terms. He will spend Sunday in Lexington, and thence start on his western trip, intending to spend some weeks in California.

In Estelle county, last Wednesday, the wife of Albert Long went to a neighbor's to borrow meal for breakfast. While she was gone the house took fire and burned to the ground, consuming two little boys, one five and the other three years old, and on the fact that some clothing had been carried out, the neighbors believe that the older child had gone out of the house and returned for his little brother, when both were burned.

NEW YORK.

NEW YORK, April 30, 1875.

Poisoned Salt.

The discovery has been made that a considerable portion of the cargo of salt, of the ship Niagara, recently arrived here, became impregnated with arsenic from barrels of the latter which were broken during a tempestuous voyage. Considerale quantities which had been sold had been returned. Some of those most interested in the cargo are much dissatisfied with Dr. Doremus' analysis and have submitted many samples to another chemist, hopeful that at least eventy-five per cent. of this salt may yet be pronounced saleable. It is certain, that very little, if any, of the poisonous stuff has actually entered into consumption. The presence in the city of poisoned salt was made known through a warm discussion in the Custom House between the officials and interested importers.

Obituary.

Oliver Charlick, late Police Commissioner and President of the Long Island Railroad, died to-day.

FROM WASHINGTON.

WASHINGTON, April 30, 1875.

The Civil Rights Act.

Judges Brooks and Dick, in their charges to the Grand Jury in North Carolina, declared the criminal features of the Civil Rights act unconstitutional, as no law could say men are socially equal.

The Internal Revenue Receipts

to-day were \$362,577; receipts for the month, \$7,022,381. A comparison of the receipts for the first four months this year with the corresponding period of 1874 shows an increase of \$2,530,061.

Cabinet Meeting.

The Cabinet was in session but a short time to-day. All the members were present except Secretary Delano and Postmaster General Jewell. No business of importance was considered.

NEW ORLEANS.

Suits Against Charles Clinton, State Auditor, and His Sureties.

NEW ORLEANS, April 30.—Wm. P. Kellogg, Governor of the State of Louisiana, suing for the use of said State, and represented by A. P. Field, Attorney General, has filed a petition in the Superior District Court against Charles Clinton, Auditor, and his securities on his special bond, Chas. Menard, Chas. G. Slayback, Wm. Dillon, J. M. Schwarz and Geo. C. Benham, *in solido*, for the amount of \$10,000, to recover judgment against said Clinton; for the sum of \$279,783.83, the amount received from tax collectors in the year 1873, unaccounted for, detained and withheld by said Clinton; for the further sum of \$60,300, the amount illegally paid James Longstreet; for the further sum of \$45,382.55, the amount illegally taken from tax collectors by said Clinton, and used by him, and for the further sum of \$138,557.33, the amount charged to be due; for illegal issuing, per warrants, to Geo. W. Benham, for \$34,500; James B. Wands, for \$14,372; E. W. Dewees, for \$27,500; C. W. Lowell, \$14,278; Jas. S. Matthews, \$14,500; J. H. Oglesby, \$33,407.30.

The above warrants were issued under the legislative voucher appropriations for 1870, 1871, and 1872, act No. 69 of 1874, and represented what was known as the Pinckney Smith legislative vouchers for this year. The warrants in the petition are contained in the articles of impeachment.

MICHIGAN.

A Fishing Fleet Caught in a Storm—Several Vessels, With Their Crews, Lost.

ST. JOSEPH, Mich., April 30.—Yesterday forenoon about eleven o'clock a furious and bewildering wind and rain storm came from the northeast, and caught a portion of the fishing fleet, about nine vessels, some engaged in lifting their nets of the day before and some in the act of paying out their nets, and sent them suddenly off toward shore, with the following result: The Sea Lion, Capt. Springstern, stranded at the Grand Marr; Southwind, Capt. Clanfoot, with four men aboard, is undoubtedly lost; General Hooker, Capt. Myers, is on the beach, three miles south; Planet, Capt. Geneit, at Brown's pier; Seagull, Capt. Frank Keyank, with three men, lost; E. B. Perkins, Capt. F. Dalk, with four men, lost, as three men were recognized while floundering in the water by a schooner passing at a distance without being able to give any assistance. The fleet having their banks to the northward had a lively run to get in safe with their effects, and had an exceedingly small lift.

NASHVILLE.

A Police Officer Killed While in the Performance of His Duty.

NASHVILLE, April 30.—Robert Frazier, a policeman, was shot and killed at one o'clock this afternoon, while in the performance of his duty, by Joe Reed, colored. Reed was whipping his wife. Some of the neighbors sent for officer Frazier, who hurried to Reed's residence, and as he entered the door, and remarked to Reed he would have to arrest him, Reed shot him twice, once in the mouth and through the heart, killing him instantly. Reed then attempted to make his escape, but was captured about half a mile from his home, in an old brewery cellar, and hurried to jail to keep him out of the hands of a threatened mob. The excitement is intense, and there is every probability of an attempt to lynch him to-night. Jailor Heverin is taking every precaution to keep him secure from mob violence. Frazier was very popular and universally esteemed.

PERSONAL.

***A. H. Coffroth, Esq., of Somerset county, was yesterday admitted to practice in the Allegheny County Courts.

***Senator Wood's speech-making in the Legislature last winter cost the State, for printing, \$120.40, within five dollars of as much as the remarks of the three Republican Senators from this county, cost.

***City Solicitor Bigelow has notified President Kaylor, of the Pittsburgh Bolt Company, that the city cannot pay the expense of the policemen detailed to guard the colored puddlers. The bill for police duty aggregates \$690. The matter will likely be discussed at the meeting of the Police Committee to-night.

***Prof. A. E. Frost, of the Allegheny Observatory, delivered a very interesting lecture in Plymouth church, Allegheny, last evening. Prof. Frost, though a young man, is a gentleman of fine culture, and is well versed in the beauties and mysteries of astronomical science, so that what he says is instructive, and the way he says it entertaining.

***Elsewhere in to-day's paper announcement is made of the candidacy of Mr. W. H. McCleary, for Clerk of Courts. Mr. McCleary has held the office for the past three years, and has discharged its duties in a manner that entitles him to the highest praise. He has made an efficient official—one who was alike popular with the Court and the people.

The Nobbiest of the Nobby.

Young man, of course you like to be well dressed; this is but right, and nothing morally wrong in it, the preacher to the contrary nothwithstanding. But you should prepare for old age while in the bloom of youth and manhood, and to this end you should wear the nobby suits sold by the Boston One Price Clothing House, 95 Smithfield street, as you can buy a good business or dress suit for less than half of what you would pay for the same suit by ordering it from the piece. This is a great saving in the course of a year, and you will be surprised to see how your bank account will pile up by and by.

He is said to have been subject to attacks of heart disease.

····The day of fasting and prayer in the interest of the temperance cause, was observed at the Alliance rooms yesterday morning, the exercises being well attended. At twelve o'clock there was an adjournment to the Second U. P. Church, and in the evening a grand mass meeting was held on the South Side, at which addresses were made by a number of the prominent leaders in the movement. It was throughout an impressive service.

····Wm. Semple's *Ladies' Journal*, for May, has just been issued as fresh and beautiful as the month of blossoms. The illustrations in this number are profuse and very fine, and the reading matter is of a choice character. We are not surprised to find in our rambles, that the journal finds a place in the affections of the people generally, for it is one of the best home journals—pure and elevated in tone, attractive to the eye and informing to the mind. We are pleased to note its great success.

····Yesterday Fred. Aimes and Charles Moore were held to bail in the sum \$1,500 each, by U. S. Commissioner McCandless, for alleged violation of the Civil Rights bill, in not allowing a colored man admission to the dress circle of Aimes' Theatre. The defendants say they did not violate the law, as Charles Thomas, the plaintiff, had only bought a twenty-five cent ticket, which entitled him to a seat in the gallery. The matter will be investigated by the U. S. District Court.

····During the administration of U. S. District Attorney Swoope, judgments for penalties were obtained against the Connellsville Railroad Company as follows: Taxes on net earnings, \$25,000; taxes due on bonded interest, \$25,000; judgment for penalties, \$2,000; total, \$52,000. In addition to this, suits are pending in two cases, one for \$1,000 and the other for \$30,000, against the company. An effort will be made to have the judgments reopened by the company, but with what result, remains to be seen.

WESTMORELAND'S CENTENNIAL.

The Proposed Celebration at Greensburg Next Month—Officers Elected Yesterday.

The Centennial celebration by the citizens of Westmoreland county of the Hannastown Declaration of Independence, of May 16, 1775, promises to be an interesting event. The Committee of Arrangements met at Greensburg yesterday, with Mr. H. C. Marchand in the chair, and elected the following officers:

President—Hon. James Veech, of Pittsburgh.

Vice Presidents—(Two from each of the sixteen counties comprised within the limits of Westmoreland county, as originally formed in 1773 and enlarged in 1785 by addition of purchase.)

Allegheny county—Hon. Moses Hampton, Hon. Thos. J. Bigham.
Armstrong—Alex. Reynolds, Esq., H. N. Lee, Esq.
Beaver—Col. M. S. Quay, Benjamin Rush Bradford, Esq.
Butler—Hon. Jacob Ziegler, Hon J. M. Thompson.
Clarion—Hon. Wm. L. Corbett, Hon. Jas. Campbell.
Crawford—Hon. Walter A. Lowrie, Hon. S. Newton Pettis.
Erie—Hon. W. A. Galbraith, Hon. George Cutler.
Fayette—Hon. A. E. Wilson, Hon. Daniel Kaine.
Greene—Hon. A. Purman, Hon. T. J. Pauley.
Indiana—Judge Sutton, Major S. S. Jamison.
Lawrence—Hon. L. L. McGuffin, Hon. Samuel McKinley.
Mercer—Hon. Wm. White, Hon. John A. Spearman.
Venango—Hon. John Trunkey, Col. Chas. Taylor.
Warren—Hon. Glenni W. Scofield, Hon. ——— Struthers.
Washington—Hon. Geo. H. Miller, Hon. W. S. Moore.
Westmoreland—F. J. Cope, Esq., Gen. C. P. Markle.

Hon. Richard Coulter, of Greensburg, has been elected Chief Marshal for the occasion, with fifteen assistant Marshals, to be selected from the counties comprised in old Westmoreland county.

The programme for the celebration is as follows: That there be a mass Convention at the Court house in Greensburg, on Saturday, May 15th, 1875. That the officials and people of the several counties, originally comprised within the county of Westmoreland, be invited to be present; also, all others in the State and country interested in commemorating the events of the Revolution. That the military organizations of Southwestern Pennsylvania be invited to be present. That the programme of the day be a parade in the streets of Greensburg in the forenoon; a national saluto be fired at twelve o'clock meridian, and the organization effected at one o'clock in the afternoon in the Court house.

Ladies, let us Reason Together,

whether it is cheaper to pay five dollars for two pairs of shoes, which will wear you three months, or to pay three dollars and a half for one pair which will wear for the same time. Work out this problem in your own minds, and then save money by buying your shoes from Wm. Martin, No. 108 Federal street, Allegheny. He does not allure custom with cheap and inferior goods, but relies on excellence of material and workmanship at fair and moderate prices for his success in business. All work guaranteed. Perfect comfort in the wear of his manufactures, as they are made to fit and not to pinch and cramp.

GENERAL SHERMAN'S BOOK
D. APPLETON & CO.,
549 & 551 BROADWAY, NEW YORK,
Will Publish May 15th,
MEMOIRS
OF
General William T. Sherman,
WRITTEN BY HIMSELF,
COMPLETE IN TWO VOLUMES.
Small 8vo, 400 pages each. Price in blue cloth, \$5.50; sheep, \$7.00; half turkey, \$8.50; full turkey, \$12.00

From the Tribune.
"General Sherman is known as a capital talker, and in this book he is said to write much as he talks—with the same freedom and spirit."

From the Army and Navy Journal.
"It is not offered to the public as a complete history, but rather as an *aide memoir* to the future Napier of our Civil War, and the effort has been to condense as much as possible, and leave abundant room for others to follow. From the tendency of General Sherman's mind to frankness and distinctness of statement, we may expect his work will be one to provoke criticism, but this will increase rather than diminish its value, and it is well that it should see the light while so many of the prominent actors in the scenes it describes still continue among us. We shall have further occasion to refer to this most important contribution to military history as it advances toward publication."

From the N. Y. Evening Post.
"The Messrs. Appleton are soon to publish a work of very great interest. It is to be a memoir written by General W. T. Sherman, of the events in which he was so illustrious an actor. General Sherman, in his dedication of the volume 'To his Comrades in Arms, Volunteers and Regulars,' says that he does not design to write a history of the war, or even a complete account of the events of the war with which he was connected, but merely his recollection of events, corrected by a reference to his own record."

SENATOR RANSOM, of South Carolina, thinks it would be unwise to place any Southern Democrat in the second place on the Democratic Presidential ticket for 1876.

THE Grand Jury of the District of Columbia is inquiring whether Bill King committed perjury in the Pacific Mail investigation. William will yet find, perhaps, that the way of the transgressor is hard.

INDIAN SUPERINTENDENT HOAG denies the charges made against his official conduct, and dares his assailants to furnish the proof. He talks like an honest man, and in his letter of denial explains many circumstances that looked dubious before.

JAMES ANTHONY FROUDE has been on a visit to South America, and he was so impressed with what he saw there that he is engaged in a series of articles to show that it is a country which offers inducements for emigration superior to either America or Australia.

PHILADELPHIA, Boston and New York, engaged to pay for a memorial window in the Shakespeare Memorial Church at Stratford-on-Avon. New York paid her share, and there is somewhat of a breeze now because the others have not fulfilled either the letter or spirit of the bond. The "Hub" and the "Centennial city" ought to rise and explain.

BOSTON merchants are exercised over the question of cheap transportation, and they want the Legislature to stop the discriminations against that city in favor of New York. An association has been formed, and as the merchants have begun to thoroughly realize that trade is leaving them, active efforts will doubtless be made to discover a remedy.

THE great struggle over the Bond of Friendship—which was a notable one in our local legal annals—has ended in a verdict for the holder of the Bond, but the Supreme Court is yet to have a wrestle with the case. It is perhaps well that it is so, for there are so many interesting legal questions involved concerning legacies, that the final decision will be looked to with interest.

IS THERE no one who, in the interest of justice and philanthropy, will knock that chip off Brother Bowen's shoulder. He seems to be absolutely spoiling for a fight, and his belligerency is touching in the extreme, when taken in connection with the fact that he prances all around the contestants, and breathes out threatenings and slaughter to come, and the eternal interests of justice to be subserved, if some one would only relieve him of the pressure of that chip on his shoulder, which thus far has borne him down. Let some one remove the wood, and give Brother Bowen a chance.

THE Massachusetts Legislature is considering a bill to require all freight cars built after August 1st, to be provided with coupling arrangements that will give a brakeman at least an even chance for life. The statistics of railroading show that the position of brakemen on freight trains is the most perilous of open air occupations, and their lives are less easy to insure than those of powder mill employes. In constant peril from bridges, falls, bumpers, couplings, as well as the usual railway risks, they have as a rule but short careers, and if they can be protected they should be by somebody, although it appears rather the business of their employers.

THE investigation into the management of the Philadelphia House of Correction has developed a nice condition of affairs. Briefly, the members of the Commission, with one or two exceptions, have been in the habit of dividing the purchases for supplies among themselves, without advertising for bids, and of rendering bills for them under assumed names, or those of their clerks and business partners. The mode has been for the Committee on Supplies, after ascertaining what supplies are necessary for the institution, to apportion them among their number. There are no charges of fraud, but the law has been violated, and the matter has an ugly look.

A WRITER in the *New England Journal of Education* thinks that the popular spelling contests should never be considered as fair or sure tests of orthographic scholarship. "Let the same contestants" he says, "write the three hundred words and then pass papers, correct and compare notes, and the result would probably be very different; it would certainly show more exactly their real knowledge. Good spelling is an inherited gift. It is the result of a peculiar power of memory. A scholar of good sound mind, fine reasoning powers, an excellent speaker, with a wide-awake, intelligent brain, may be so weak in spelling capacity as to miss, after considerable study, 18 words out of 20. Such a case has recently come to my knowledge. No amount of study will ever make a good speller of such a person. He must go through life yoked to a dictionary. Let teachers who can spell every word in the language be patient with all such cases."

LIBEL suits against newspapers, notwithstanding the failure of the plaintiffs in most cases, seem to be indulged in as a pleasant pastime by some people, and the less character the plaintiffs have to lose the more fierce they are generally. The Springfield *Republican* has a case on hand now, being the second libel suit it has had in its fifty years of existence. The *Republican*, in speaking of a certain "Boss" Phelps, who is accredited with peculiar powers in managing railroads and Legislatures, playfully designated him as "a public robber and a public corrupter," and Mr. Phelps, who has some acquaintance with the English language, is afraid that, if that sentence is allowed to go down to posterity, as descriptive of his character, without proper explanation, his fair fame will be considerably tarnished. Hence he has appealed to court, and both parties have agreed to dispense with a jury, and let the Judge hear the facts and decide according to the law and evidence. The developments promise to furnish some interesting reading concerning the *modus operandi* of management—as applied to railroads and Legislatures.

SOME journalistic genius, whose mind runs to statistics, has been collecting a few figures with reference to our lawmakers and their speeches. He found that during the last session of the Legislature the elegant fluency of the House cost the State for printing just $4,730.12, and of the Senate just $2,931.25. It is a matter of local pride that in this respect our own noble county held her own, and came up with as bright a record as any. Senator Wood, being a new man and presumably having that much more to tell, handsomely illustrated his disregard of expenses by contributing to that repository of Legislative lore—the *Record*—a sufficiency of fervid eloquence, which, materialized, just cost the Commonwealth $120. Representative Christy was the next man to serve his constituents well, and in the rhetorical struggle he came off successfully ahead of all competitors with an expenditure of $298. The political Solon whose display of statemanship in literary garb cost the least money was Representative Tober, of Lancaster, who let the Commonwealth down easy on 12 cents. Representative Mitchell, of Tioga, was the leader in the battle with words, and the coruscations of his intellect were exhibited at a net cost of $543. Several of the representatives, on the presumption, perhaps, that especially in the Legislature "silence is golden," indulged in no flights of fancy or florid pictures of the political travail of their souls, and hence the expense for printer's ink for them was nothing. In this list of the economites appear the names of Messrs. Large and Shidle, of our own county, together with notables from other localities. The figures are interesting and should be preserved for exhibition at the Centennial, as indicative of the fervor and force of political oratory, as developed under the fostering influences of Legislative Halls.

TESTING IRON AND STEEL.

At the recent session of Congress, a Commission was authorized to test the strength of iron, steel, and other metals. It is well known that nothing seems to be more uncertain than the resisting power of the metals; and because of this, they are usually burthened with about one-sixth only of the weight they are estimated to bear. Hence bridges and other structures contain an unnecessary amount of material, frequently, and are still unsafe. The mill test, which at some of our Pittsburgh mills is very severe, is not fully reliable, as, while one square inch of metal may bear a given strain, it does not follow that every square inch will endure the same strain. There are seven distinct conditions that enter into the question of resistance, on the part of a given piece of iron or steel, and even these do not fully determine it, as the question of resistance within the limit of elasticity must even then be taken into account. And this latter condition is difficult—nearly impossible to determine. Thus the Commission has very delicate duties before it, if it would supply a want long felt,—that of the clear determination of tensile strength, without danger or waste.

The President has appointed on this Commission Colonel Laidley, of the Ordnance, Gilmore, of the Engineers, Commander Beardsley and Chief Engineer David Smith, of the Navy, and Professor Thurston,—all thoroughly qualified, each being a specialist in some department of scientific knowledge, pertinent to this Commission. The Commission has mapped out its work, which aside from the merely incidental item of testing and branding specimens sent in, includes a combination of mechanical and chemical tests. It is known, for example, that the effects of the carbon and metalloids on iron, and upon each other in combination with iron, produce many remarkable physical changes. Many of our iron masters are perpetually experimenting, and it is marvelous how many curious results are observed, from time to time. What is thus done, in the midst of other, and active duties, will be systematically and perfectly accomplished, by means of this Commission. It is thus expected that greater toughness, elasticity, strength, hardness, and other qualities will be developed, as the result of the labors of this Commission. We will thus be enabled to economize the cost and at the same time, promote the safety of iron structures.

It is further proposed to test structures and their separate parts in actual service. The usual reason for the breaking down of structures, bridges particularly, is the fact that no test whatever was employed, when first constructed. Hence, they were tried in actual use, and eventually subjected to a strain heavier than they were capable of bearing, and were thus broken down. As we have already remarked, flaws in structures have much to do with their failure to endure the strain put upon them. The Commission will test these, and ascertain besides, just how much iron is necessary to bear a given strain. The result is that the wasteful use of material will be rendered unnecessary, and the economies thus promoted, while safety will be more completely secured than it is under our present wasteful system. Of course the careful experimenting required will cost considerably, but it will save to the industries of the country many times over the original cost. It will thus be of great value to the country, as its work becomes more widely known, in after years.

We referred, a few days since, to a fact, in relation to English experience, that illustrates the value of this Commission. England found her iron trade slipping away, so far as manufactured forms were concerned, in favor of continental competitors. The mystery was solved at the World's Fair in 1851. The continental manufacturers had more carefully investigated the amount of strain a given amount of iron or steel could be made to bear, and by the adoption of new forms and shapes, had learned to dispense with much of the dead weight the English manufacturers were putting into their machinery. As a result, they produced more graceful forms of machinery, with less weight of material, and yet that was equally durable and more manageable,—and so could undersell the English in the market. This was a revelation to them; yet with all their efforts, during nearly a quarter of a century, they have not overcome the influence thus started against them. We have just to keep this in mind. It is well ascertained that we use more material in constructing many articles than we need, and this will be provided against by the Commission now organized.

ENGAGED.

Col. Nicholas Smith and Miss Ida Greeley.

The New York correspondent of the Baltimore *Gazette* says: "The latest in social circles is the engagement of Miss Ida Greeley, daughter of the famous printer and statesman, to Colonel Nicholas Smith. Colonel Smith graduated with high honors from Rufus Choate's class at Cambridge, and is a promising young lawyer. In appearance he greatly resembles Edwin Booth, and is often taken for that gentleman. One night he entered a box at the theater, when he was immediately the object of all eyes. 'There is Edwin Booth,' they all exclaimed, as they levelled their opera glasses at what they supposed was the great actor. He was born at Shelbyville, Ky., where he spent his early days. He is now a resident of Leavenworth, Kan. During the war he took grounds against slavery. He did not oppose it alone by words, but as an example he freed all his slaves and paid their fare to Kansas.

The Chicago *Tribune* says:—Miss Ida Greeley, the eldest daughter of the late Horace Greeley, will be married in New York City on Saturday morning, and sail the same day for Europe, in company with Mrs. John F. Cleveland, her aunt, and her sister. The bridegroom is Col. Nicholas Smith, formerly of Kentucky, and brother of Mrs. Johnston, who is, or was, Postmistress of Leavenworth, Kan. Col. Smith was once nominated by Mr. Lincoln as Minister to Greece, but withdrawn before his name could be acted on by the Senate. He served in the regular army for a few years at the close of the war. He accompanies the party in a foreign tour of two or three years. His first wife was a Miss Lou Pope, of Louisville, Ky.

MISS IDA GREELEY'S MARRIAGE.

The marriage of Miss Ida L. Greeley, daughter of the late Horace Greeley, to Colonel Nicholas Smith, of Covington, Ky., is to take place at 10 o'clock this (Saturday) morning at the residence of Mrs. John F. Cleveland, aunt of the bride, No. 233 West Twenty-second street, New York. It is understood that the marriage will be solemnized by Cardinal McCloskey. There will be three bridesmaids—Misses Greeley and Cleveland—and the same number of groomsmen and ushers. Mr. John F. Cleveland will give the bride away, and Mr. Whitelaw Reid will be one of the groomsmen. The bride is to be married in a travelling dress, and the entire bridal party, Mrs. Cleveland and daughters, Miss Gabrielle Greeley, and Colonel Smith and bride, sail at 1 o'clock in the steamer Abyssinia for Europe. An informal reception will be held on board the steamer, where lunch will be provided.

POLITICAL NOTES.

"BLAINE and Allison is the last Presidential ticket we hear of, and the best one, too," says the Waterloo (Iowa) *Courier*.

THE Salisbury (Md.) *Advertiser* puts the names of Thurman and Bayard at the head of its columns as candidates for President and Vice President.

A WRITER in the Harrisburg *Patriot* brings forward the name of ex-Chief Justice Lowrie as a candidate for Governor—on the Democratic ticket.

THE Johnstown *Tribune* carries at its mast head the names of Hon. John F. Hartranft for Governor and Hon. Charles S. Wolfe for State Treasurer.

THE Detroit *Tribune* says the Republican majority at the late judicial election in that State, with an unusually full vote cast, is between 25,000 and 30,000. The Democracy don't like that sort of a "tidal wave," and we observe that not one of their journals has aired its rooster over these exhilarating figures.

IT is asserted that the election of several Roman Catholic Representatives to the New Hampshire Legislature will be contested on the ground that the State Constitution provides that Representatives must be of the Protestant religion, and the people have several times voted against the repeal of the clause.

THE Lewisburg *Chronicle* hoists the names of John F. Hartranft for Governor and Charles S. Wolfe, of Union county, for State Treasurer, subject to the decision of the nominating Convention. Mr. Wolfe is a member of the Legislature, and is most favorably spoken of by the press of the central part of the State.

THE Wisconsin Republican State Central Committee, although not apparently doing any work, it is understood have made up the following list of candidates to be submitted to the Republican State Convention next summer: For Governor, Harrison Ludington; for Lieutenant Governor, Senator Holloway; for Attorney General, Mr. Cassidy, of Janesville; for State Treasurer, Henry Baetz; for Secretary of State, probably Harrison Ludington.

THE Richmond *Whig* (Dem.) gives the following recommendations with reference to the Presidential ticket of its party in 1876: "Our ticket, of course, must come from the North—and when we say North we mean the old free States—and both candidates on it must, of course, be Democrats. But they must be men representative of liberal, national, constitutional views; men who in head and in heart, in courage and in candor, are fully in harmony with the generous spirit that has swept Radicalism from the field in the late elections."

THE Reverend C. D. Hills, pastor of Grace Church at Worcester, Mass., preached a sermon on temperance last Sunday, in which he commented in severe terms on the new license law. In the course of his sermon he said: "To-day rum-selling is wrong in this State; next Saturday the laws of the State make it right to sell. That law is a sham; it means free rum. The best interest of the city demands that the city authorities say 'No;' that Mayor Jillson stand fearlessly and do his whole duty, as did that great and good man, Thomas Talbot, who stood up for principle, and who will yet be Governor of Massachusetts.'"

PERSONAL.

GENERAL NEAL DOW, of Portland, who has been in England the past two years, lecturing on temperance, has been very ill, recently, and is coming home, next month.

A DISPATCH from Washington says there is authority of one of the most prominent officials there that the understanding at the White House is that the appointment of Judge Pierepoont will soon be followed by the retirement of Mr. Fish.

THE will of the late Congressman Samuel Hooper, filed Tuesday at Washington, gives his estate in Massachusetts and Washington in trust to Nicholas Shaw, Edward K. Lothrop, and William Hooper, for the benefit of his wife and two daughters.

MRS. ISABELLA BEECHER HOOKER'S husband has been heard from. He was just sinking into the uncertainty of a myth, when he arose and told a reporter he was going to join his wife in Europe. To all whom it may concern: His name is John Hooker.

GEN. STONEMAN is reported to have large orange groves near Los Angelos, Cal., which will some time be profitable. There is another report equally golden in tone—that Gen. Schofield has put money in his purse to the amount of $100,000 by speculation in "the great bonanza."

MR. JOHN W. SEDGWICK, a Washington gentleman, has bequeathed $10,000 to Miss Belle Sherman, of St. George's county, Maryland, in recognition of assistance rendered by her, several years ago, on the occasion of a severe fall of the testator from a horse, from the effects of which he lay for some time unconscious.

MR. SAMUEL WHITMARSH, whose scheme for producing raw silk in this country caused much excitement some forty years ago, died at Northampton, Mass., last week, at the age of seventy-four. During his life Mr. Whitemarsh spent more than a million dollars in various schemes, which were generally unsuccessful, and which resulted in his dying in poverty.

IT is announced that Mr. Charles Bradlaugh has severed his connection with Freemasonry in England because the Prince of Wales is Grand Master. We do not imagine that the Prince or the majority of Masons will shed tears over this act. The most interesting point in the case is how Mr. Bradlaugh gained admission to a lodge. Masonry makes belief in a God a prerequisite to membership, whereas Mr. Bradlaugh is open in his avowals of atheism.—*Cincinnati Gazette.*

THE value of the wedding gifts of Mlle. d'Albe, niece of the Empress Eugenie, is said to reach the pleasant amount of $1,600,000. One of these gifts is a cameo ring which belonged to Charles V. Other little amusing trifles are eleven necklaces of brilliants. The Duke d'Ossuna whom the young lady marries, is one of the richest personages of the Peninsula. Talking of weddings, there was an odd innovation upon established custom in Paris the other day, when a solo upon the violin was performed during the church ceremonial by a distinguished artist.

ITEMS OF INTEREST.

A DETROIT dispatch says telegrams announce that the ice in Mackinaw Straits is well broken.

THE miners at Swayer's Works, Wilkesbarre, have voted to resume work when the basis of 1874 is granted.

W. P. JENNEY and party, who have been appointed to make an accurate survey of the Black Hills country, passed through Omaha on Thursday, *en route* to Fort Laramie, where an escort of six companies of cavalry await their arrival.

A HEAVY storm passed over Baden, Pa., on Thursday night, tearing up trees and doing great damage. The lightning struck one house and it was burned to the ground. The loss is estimated at $1,000, but is covered with insurance. One life is reported to have been lost.

ON Wednesday train No. 3 on the A. & G. W. R. R., ran off the track at Miller's station, about twenty miles from Meadville. The ladies' car was thrown into a ditch. The smoking car, baggage car and tender of the engine were also thrown off. Three or four passengers were seriously injured, but none, it is believed, seriously hurt.

IT is four weeks ago, to-morrow, since that great spelling match between the professional men of Boston and the faculty of Harvard took place in Tremont Temple, and it has not been decided who won the prizes yet.—*Boston Globe.* That probably accounts for the fact that the Boston spellers have not accepted the challenge sent them by the victorious Alleghenians.

ON Friday morning a fire broke out at Hawk and Newall streets, Watertown, N. Y. High winds carried the flames across Newall street, and before they were got under control the Eagle Flouring Mills and Farmer's Grist Mill, with two tenements, were burned. A large tenement across the river was set on fire by sparks and burned. The total loss is about $50,000.

THE barkentine Marara, thirty-two days from Tahiti, reports the capsizing of the schooner Margaret Crockard, from Tahiti to San Francisco, having on board the officers and crew of the British ship Aireyforce, wrecked on the passage from Australia to San Francisco. Sixteen were drowned. The remainder, with Captain Godfrey, of the Crockard, and Captain Collier, of the Aireyforce, arrived at Tahiti.

CONSIDERABLE damage has been done by the river to the tracks of the Kansas City & St. Joe Railroad, near East Nebraska City and Forest City. Trains are running around via Red Oak. The track on the same road is broken for some 200 feet, and the water is running over it for half a mile, about four miles south of Council Bluffs. The B. & M., in Nebraska, are as yet unable to run from Omaha to Bellevue. They are running passengers around by omnibus.

THE FASHIONS.

What to Wear to be in Style.

Some of the Novelties for the Season—The Latest Style of Hats—New Dress Goods and Patterns—Walking Dresses and in-Door Toilets—Costumes for the Home, the Party, or the Promenade.

Ladies who thoroughly understand the art of dressing in good taste never hasten to adopt the newest modes, but prefer to have recourse to "demi-saison" suits. Dressmakers generally understand by a demi-saison suit, a dark gray woolen costume, which is well adapted to walking, and serves until proper consideration has been bestowed upon the selection of genuine Spring suits. The capote form, made of cheviot, vigogne, or cachemire, is suited to this purpose; it can also be used as a polonaise for house wear; when intended to meet the first named, the neck is finished with a double or triple collar. The Russian flounce is also very suitable for this purpose; one flounce is described as made of black sicilienne, bordered with beaded galloon, and confined by a faille ribbon sash.

WHITE SUITS FOR SUMMER.

While shivering under velvet and furs during the windy days of the past month, the idea of shortly needing white dresses for hot weather seemed absurd. The dry goods people, however, cling to the hope that hot weather will arrive some time or other before the Fourth of July, and are making preparations accordingly. They predict that creamy white French nainsook will be used for summer costumes, richly trimmed with fine knife pleating edged with Valenciennes, and alternated with ruffles of Hamburg embroidery. The skirts of these sheer muslin suits are made wider than they have been of late, and now measure four yards around the bottom; they have two narrow side gores and two full back widths; the front and side breadths are sewed to a belt, and the back is gathered by a drawing string. On handsome imported nainsook dresses there are three scant flounces of Hamburg embroidery, each edged by knife pleating three inches deep. The overskirt is a deep apron reaching to the toe; this has a front breadth and a side gore, while behind are two long straight breadths, draped and puffed on the tournure. An embroidered ruffle edged with pleating is the trimming. The basque has one dart in front, and an English basque cut square on the tournure. They are ornamented as a model for the "young girl graduates" who ask for such hints; also for those who are preparing their wardrobes for the summer watering places. Dealers say that Hamburg embroidery is preferred to expensive needlework even by those who can afford it; also that Italian Valenciennes lace is used in these costumes, and finer real laces are reserved for evening toilettes. Many of the French basques imported with these suits are cut long and square on the sides, and quite short in the back and front. The sleeves are coat-shaped, with knife pleatings and puffs around the wrists. The neck has a standing pleated frill, and the lengthwise trimming outlines a vest. French needle-women excel in making fine crimped pleatings; their work is all done by hand, and the infinitesimally small pleats are held in position by thread underneath. Muslin overskirts and sleeveless basques are also imported. The over-skirt is a large apron, deeply rounded in front, but square behind, held together by a dark bow on the tournure, but with the square corners behind falling open. Such over-skirts are entirely formed of lengthwise box-pleats of white organdy, alternating with Valenciennes insertions, and edged with lace. Accompanying this is a sleeveless basque, much shorter behind than in front, made of similar box-pleats and rows of insertion. Blue or rose colored gros grain bows trim the front of the basque, and a sash bow is on the tournure. For a very rich dress for graduation-day this will be worn over a plain dress of white silk and trimmed with white gros grain bows.

SOME NEW STYLES OF WALKING DRESSES.

A walking-dress can be made of beige, and trimmed with bands of brown or black velvet. The vest waist has an open basque; the postillion forms a double basque. The ruching at the neck is of beige; within is another ruching of Valenciennes lace. The sleeves are finished at the waist with a ruffle, and a band of velvet is above. The apron is shirred at the sides, and bordered with a deep band of velvet.

Another walking suit has a plaid silk poplin tunique trimmed with bias bands of velvet; above the velvet is a narrow white lace. The collar is made of two shades of faille; the revers is also of faille, and turns back; it is trimmed with lace. This tunique has a peculiar cut; it has a postillion turned over; under this is a double faille basque, which falls loosely over a sash, which is at the back of the skirt. The train is gathered on the belt; it is drawn together in the middle and placed under the bow of the sash; over the bow is a cord and tassel which fastens it to the skirt; a cord and tassel are also at the back of the waist. The apron is shirred up at the sides and joined to the train, under three ribbon bows, placed one above the other; from the lowest depend a cord and tassels. The front of the skirt is trimmed with a flounce and puffing, with ruching top and bottom.

A cuirass and apron may be made of Madras check, trimmed with faille. The cuirass is trimmed around and down the front with faille; the collar and revers are trimmed with the same. The apron is trimmed down the front with a wide band of faille; it is not trimmed around the bottom. Fancy buttons extend from the top of the waist to the bottom of the apron. At the back is a sash in a dark shade of faille, bordered with a lighter shade and an acorn fringe.

Another suit is made of faille in a dark shade and Madras check foulard. The back of the cuirass is faille ornamented on the side with a foulard pocket bordered with faille. The basque and postillion are of faille. Underneath is a checked waist, to which the cuirass is sewed, and this being very much open in front, the waist serves as a vest. The apron is shirred at the sides and bordered with faille ribbon. A foulard sash is at the back; its loops are surrounded by a shell-shaped trimming of Bruges lace.

A HANDSOME "FULL SUIT."

A toilet may be cut in princess form, tight fitting to the middle of the body, where the back breadths become at once very wide. The train is ornamented with a deep flounce shirred in the middle and separated by small bias bands of sky-blue silk, and the heading is bound with sky-blue silk. The front breadths are trimmed at the bottom with a trimming divided into three parts—a small ruffle, a knife plaiting, and a second ruffle; above both ruffles are bands of sky-blue gros grain silk. A plaited piece of muslin is placed underneath the flounce at the back of the skirt, falling a little below the flounce. The fullness of the skirt is kept back by a large bow and ends made of a Chantilly lace flounce; over this is a fringed sash of sky-blue gros grain. The tight-fitting sleeves are shirred lengthwise. A Chantilly lace scarf is thrown over the shoulders. The bonnet suited to this is of rice straw trimmed with sky-blue gros grain ribbon, wild roses, and feathers.

An indoor dress can have a tunique of Scotch plaid of two shades, trimmed with black faille. The pockets and cuffs are of black faille, surrounded by pipings of gray faille. The front of the skirt is adorned with narrow, gathered flounces, and above these are crosswise bands of black velvet. The train should be of light gray material and bordered with a deep band of black faille. Another dress can be made of plaid and plain poplin combined. The basque corsage is trimmed with bands of plaid placed in imitation of a square, low-necked waist, and corded with black faille. The sleeves are of plaid poplin, trimmed with guipure. The scarf is of plaid poplin. The small overskirt, which is only at the back, is trimmed around with a band of plaid poplin. The underskirt is of plain poplin, with a flounce around the bottom, having very little fullness; above this is a shirring and heading; a short distance above are three shirrings with heading. For Summer wear this toilet can be arranged so as to be worn as a square, low-neck dress, with a fichu underneath of battiste or foulard.

BONNETS AND HATS.

Bonnets and hats have not been so loaded with ornamentation for years as they are this spring. They will have quite wide brims. Bent down at the sides, flared up in front and turn up a little at the back, the hat is called a bonnet. But whether hat or bonnet, it is mostly heavily trimmed around the crown, with a brocaded scarf of soft material, and some beautiful light color and flowers, and under the brim with as many flowers as can be put there. Among the beautiful flowers exhibited, and never were they more natural in appearance or more beautiful, scarlet poppies and wheat and oat ears are the most popular. Bunches of field flowers, with long trailing wreaths of the same, as well as delicately-tinted roses, will be worn. Fine straws, brown, black and white, will be the favorite material. Upon hats fine filigree silver and gold ornaments are very handsome, but are used with great care, as they have a tawdry look if used bountifully; large round brooches, cut buckler, and oblong pins are most liked.

GENTLEMEN'S SPRING FASHIONS.

The principal novelty for this season is a three-button sack coat, called the Beaufort. It is cut medium length, shaped well to the figure, made with four outside patch pockets, and always worn with three buttons buttoned. The fore part is moderately cut away from the third button. This coat is specially adapted for the new Spring suitings, the entire suit being made from the same pattern. The leading styles are fancy checks, smart mixtures in heather colors, and Knickerbocker cheviots.

The next coat in favor is the two button morning coat, made with flaps on the hips when from fancy goods, and plain skirts cut a little longer when from the more dressy goods. In worsted coatings the Mayo, feather twill and Napiers are the newest, but none of them excel the original plain diagonal. Frock coats are now made almost entirely from this class of goods, plain superfine cloths having been relegated to elderly gentlemen, who can afford to disregard the dictation of fashion. The frock coat is cut rather long, though shorter than during the Winter, is made to wear with three buttons buttoned, silk faced and braided, or plain facings and bound narrow. The waistcoat is of white duck, double-breasted, to show above the turnover of the coat. Trousers to wear with the frock coat should be of a medium shade, and a small, neat stripe. For undress wear they are made from checks of rather decided patterns, and are cut very loose and straight to the leg, falling naturally over the boot.

DRY GOODS, TRIMMINGS.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, May 1, 1875.

The condition of the local money market continues essentially unchanged, being characterized as easy, as for several days past. There appears to be a more cheerful tone prevailing, as business becomes brisker, without noticeably affecting the supply and demand. An increased activity is apparent in the various departments of trade, and a better inquiry for money may reasonably be looked for in the near future. None of our banks are taxed to meet the demands made upon them, although they admit that calls are steadily increasing, both as to amount and frequency.

The London *Investors' Manual* gives the following as the amounts to be paid in April on account of London and Continental subscriptions to American loans:

	Amount of call.
Pennsylvania Railroad . . .	£ 930 000
Real estate (New York) first mortgage bonds	220,000
Utica, Ithica & Elmira Railroad	60,000
Western Union Telegraph bonds	437,750
Delaware & Hudson Canal . . .	100,000
Total	£1,747,750
Same amount, 1874	1,919,900

The total amount to be paid up this month is £1,747,750 ($8,500,000), against £1,919,900 for same month of last year. The amounts paid up each month this year compare as follows with those of 1874.

	1875.	1874.
January	£ 591,250	£ 996,480
February	1,905,000	1,091,000
March	2,257,500	2,170,000
April	1,747,750	1,919,900
Total	£6,501,500	£6,177,380

The amounts paid up for the first four months of the year exceed slightly those for the same period of last year. These operations have furnished a resource for the drawing of $31,600,000 of exchange; showing that we are borrowing abroad at the rate of about $95,000,000 in gold per annum.

—The Chief of the Bureau of Statistics publishes a statement of the principal articles of British and Irish manufacture exported to the United States during the first three months of 1873, 1874, and 1875, respectively. Most of these exports show a continuous decrease; in some of them there is a considerable falling off, and in one of them—unwrought copper—there is an absolute discontinuance. The decline is most marked in lead, iron, silks, machinery, manufactures of paper, hardware and cutlery, worsted stuffs, carpets, and cotton goods. There is an increase in the exportation of tin plates and sheep and lamb's wool, and a slight revival in that of salt, woolen cloths, and spirits.

NEW YORK, April 30, 1875.

Money was easy at 3½a4; prime mercantile paper 4 to 6. Sterling was quiet at 487a487½ for sixty day and 490a490½ for sight. The dry goods imports for the week were $1,384,408. The customs receipts were $209,000. Gold was firm at 115⅞ a115½. The borrowing rates were 3a9 per annum, 1-64a1-32 per diem, and flat. The Assistant Treasurer disbursed $701,000. The clearings were $33,000,000. The specie engagements for to-morrow's steamers are $1,000,000. Government and railroad bonds are steady. State bonds are quiet.

The stock market opened steady, except for Panama, which went down 2 per cent. As the day advanced there was a decline of ¼ a ½ per cent., which was more than recovered later, with the chief advance in Northwest. After one o'clock the market was again weak, with Wabash leading the decline. At the final close the market was steady, with a recovery of ⅛ to ¼ from the lowest point. Union Pacific rallied from 76⅞ to 77½, Wabash from 14⅛ to 14⅞, Atlantic & Pacific Telegraph from 26 to 26½, and Western Union from 79 to 79⅝. The large dividend-paying stocks were quiet and without much change. Wabash recovered on the announcement that the directors of the company left here this morning for Toledo to perfect a plan for the financial reorganization of its affairs. The transactions aggregated 110,000 shares, of which 4,000 were Pacific Mail, 36,000 Western Union, 11,000 Northwest, 5,000 Rock Island, 10,000 Erie, 7,000 Lake Shore, 12,000 Wabash, and 15,000 Union Pacific.

Broom Corn.

The market continues quiet, but the fact does not occasion any uneasiness among holders, some of whom advised quietness during the planting season. Corn is held at the same figures, but there is not so much disposition to increase prices. Consigned lots of common grades have recently been sold at light concessions; however, these outside sales are few, and could scarcely be considered fair exponents of the market. The great demand for broom-corn seed does not appear to be experienced by all dealers. Some of those who did a large business in seed in past seasons report a comparatively light demand this spring, one of the reasons for which is that old growers saved their own seed; but larger orders have been received from Kansas, Nebraska, and the Pacific slope. The farmers in the above named States will plant more broom corn because it is avoided by the otherwise omnivorous grasshopper. Probably a larger crop will be gathered next fall than last, but more will be wanted, as comparatively little, if any, corn will be carried over, while at the end of each season following 1870 the surplus of old corn was quite large. However, it would be easy to overstock the market, as the demand for broom corn in this country is limited at heart. Following the full range of prices, the outside being the highest for the best qualities of the grades named: Good to choice hurl, 12½@14c; brush that will work itself into a choice hurl broom, 11@12@23c; fair to good do., 10@10½@11½c; inferior brush, 8@10c; crooked, 6@8c.—*Chicago Tribune.*

Condition of the Markets at Home and Abroad.

DAILY REPORT OF PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, April 30, 1875.

Trade in general merchandise continues fairly active, better than it has been, and about all that can be expected under existing circumstances; however, there are no new or important features to notice excepting that nearly all the leading articles, including Flour, Grain and Groceries, are very firm in tone with an advancing tendency.

APPLES—Selling in a jobbing way at $2,50@3,50 ℔ bbl for fair to choice.

APPLE BUTTER—50@55c ℔ gal.

BEANS—We repeat former quotations, in a round lot way, $1,75@1,80 for mediums, and $1,85@1,90 for navies.

BUTTER—Continues to come in freely and the market, even for the best grades, is a shade easier, although prices are still maintained; 28@30 for prime rolls and 25@28 for choice dairy.

CHEESE—The stock in this market is very much reduced and there is a firmer feeling in consequence, but prices are no higher; we continue to quote at 16½@17c for prime Ohio Goshen, and 17@17½c for New York ditto.

CRANBERRIES—$10@12 ℔ bbl.

DRIED FRUIT—Quotable at 7@8c for Apples; 8½@9 for halve Peaches; 6@7 for Elderberries, and 8@10 for Blackberries.

EGGS—There has been no quotable change for several days; 15 is regarded as the ruling rate although we hear of occasional sales at 14@14½.

FLOUR—The market is firm and prices are still tending upward in sympathy with the recent advance in wheat. We quote as follows: Spring wheat floors, $6@6,10 for Wisconsins; and $6,25@6,35 for Minnesotas; winters, $6,25@6,50 for red, and $6,75@7,00 for amber and white. Rye Flour, $5,75@6,00.

GROCERIES—There are no new features in the grocery trade deserving of special notice, or to which reference has not previously been made in these columns. All the leading staples, including Coffee, Sugar and Molasses continue very firm, and while business is not all that could be desired, it is about all that can be expected; and, furthermore, is considerably better than it was prior to the ending of the lock-out.

Demarara	50@55		

GRAIN—The demand for Wheat, especially from country mills, is steadily increasing, and with no stock and little or none coming forward, excepting that consigned to the mills, the market is strong and advancing; prime Ohio and Penna. red would bring $1,28@1,30—it is quoted at $1,30@1,35 in Cincinnati. The Oat market is firm, with a very limited supply, but the demand is confined mainly to supplying immediate wants, and prices remain about as last quoted: 68@69 for mixed and 71@72c for white—sales of the latter at 71½. The supply of Shelled Corn is light and the market firm; quotable at 83@84 for mixed and 85@86 for yellow, free in elevator. Ear Corn, 84@86 for mixed to prime yellow, on track. Rye is in demand: would sell readily at $1,18@1,20.

HAY—Baled is in fair demand, and with limited receipts the market is firmer; $17@18 for prairie and $20@23 for timothy, according to quality and condition.

HOMINY—4.25@4,50 ℔ bbl.

MAPLE SYRUP—$1@1,15 ℔ gallon jugs.

ONIONS—$3,50@4,50 ℔ bbl, according to quality and condition. Onion Setts, $7@8 ℔ bu.

PROVISIONS—There is a continued steady jobbing trade, but, while the general tone of the market is strong, prices remain as last quoted.

PITTSBURGH IRON MARKET—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, April 30, 1875.

PIG IRON.

There is no improvement to note in trade and the outlook is not as satisfactory as it was hoped and expected it would be at the time the lock-out closed. While it is true that nearly all the mills are in operation, many of them working double turn, they are buying very little metal; the most of them were pretty well stocked prior to starting, up and it looks as if they were determined not to buy any more until they have used up what they have in yard and bought to arrive. There are various reasons assigned for the unsatisfactory condition of the market for raw iron; one is, orders for the product are not coming in as freely as was generally expected, and some of the mills talk of shutting down just as soon as they get through with what orders they have booked; and then again, it is claimed that there is no margin for profit, that the raw article is higher relatively than the product. As compared with last week, there has been no perceptible change in prices: standard mill irons, $24, 4 months, although some holders are holding at $25 and refusing to sell for any less. No. 1 Foundry, $27@28, 4 mos; No. 2 do., $25@26; White and Mottled, $21@22. Following sales were reported:

MANUFACTURED IRON AND NAILS.

The market for finished irons presents no important features to which reference has not previously been made in these columns. While the mills are nearly all reported busy, it is mostly in working up former contracts; new orders are not coming forward as freely as expected, and the general outlook is not regarded as being favorable. However, the complaint is not so much for want of orders as it is in regard to prices, which, it is alleged, afford little or no margin for profit, and we understand that some of the mills expect to shut down again about the first of June unless there is a decided improvement in the outlook in the meantime. The Nail factories have had all they could do ever since they started up, but they are working up accumulated orders, and it is probable business will commence to slack off within the next few weeks. The market is quoted steady at $3, sixty days, with usual discount for cash.

SCRAP IRON.

The Scrap trade continues dull, as it was expected it would be after the lock-out ended, and prices are weak and lower; No. 1 wrought quotable at $32@33, delivered free at mills. Scrap Steel is in light stock and with a fair demand prices are fully sustained.

NEW YORK.

NEW YORK, April 29.—The condition of the Iron market appears to be anything but encouraging, and there seems to be no reason to hope for any improvement very soon. The troubles in the coal regions still continue, but without affecting the price of Iron. The demand is exceedingly stagnant, and the wants of the country seem to be even less than the limited production. Several lots have been pressed for sale for cash during the week, without effecting sales, the only offers being from $2 to $5 less than quotations. We note the sale of 200 tons White Iron at $18.50. We still quote Lehigh brands, Foundry No 1, $28; Foundry No 2, $26, Gray Forge, $24@26.—*Iron Age.*

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, April 30, 1875.

The market for Crude was weak last evening and this morning, but later in the day it stiffened up and an advance was asked; it opened at $1,47½ for immediate shipment, advanced to $1,50 and closed at $1,52½. The demand has been very light all week, being confined entirely to supplying immediate wants; brokers report that the most of the sales recently have been from two to six car lots. While river navigation held out refiners generally bought pretty freely in order to take advantage of the low cost of transportation, but since it has been suspended and there is but one way of getting it here, by rail, the demand has fallen off, and this no doubt has had something to do with the decline in prices. Refined dull and lower, with but little inquiry; 10⅞ best plump bid for delivery at Connellsville depot to go to Baltimore, although refusals were solicited at 10⅞. Philadelphia and Baltimore are now pretty close together, but the difference in the cost of transportation makes Baltimore the best market for Pittsburgh.

Barrels continue dull and countries are lower, with sales yesterday at $1,10; city make unchanged at $1,30.

Chicago Seed Market.

CHICAGO, April 29.—The market was again active and buoyant for Hungarian, but in the other descriptions only a moderate business was transacted. A very firm feeling prevailed, but no particular change was noticeable, excepting for prime Hungarian, which was a shade better. Timothy sold at $2,30@2,31 for good; prime quotable at $2 35@2,40. The offerings of prime medium clover were light, and prices were firm at $6,75@6,85. Flax sold at $1,80. Sales of Hungarian ranged at $1,40@1,55 for prime to choice; closed at about $1,50 for prime. Millet sold at $1,40@1,55 for good to prime.

BOATS ADVERTISED TO LEAVE TO-DAY.

Wild Duck, Adams, St. Louis, 4 P. M.

THE stage of water last evening was six feet four inches, and rising slowly.

COM. W. J. KOUNTZ arrived home from New York yesterday.

THE Belle McGowan was the only towboat arrival since our last.

THE little cotton-seed steamer, Huse, sunk a few days since about 200 miles below Memphis.

A THREE-EIGHTHS interest in the Thompson Dean was sold at Cincinnati, it is said, for $12,000.

THE Fannie Tatum was advertised to leave St. Louis for Pittsburgh on Thursday, and the John L. Rhoads on Saturday.

THE Susie Silver, en route from St. Louis to Wheeling with a cargo of ore, was aground at Buffington at last accounts.

CAPTAIN D. C. COWDEN, after four years of service as Wharfmaster at Gallipolis, has been re-elected for the fifth year.

THE A. J. Baker, Captain Poe, is announced for St. Louis forthwith. Shippers can depend upon the Baker going out on this water.

THE Fearless and George Lysle, with tows of iron ore, should arrive here to-day. The little rise just came at the right time to let these boats up.

THE Wild Duck will positively take her departure for St. Louis and the Upper Mississippi to-day, and shippers should make a note of this and be governed accordingly.

AN exchange says: Steamboat owners needn't cry over their misfortunes, for railroads are losing two dollars where they are losing one, and duller times to hear from.

THE Mollie Ebert was due last night with a good trip, and will doubtless be found in port this morning. She will at once commence loading for Cincinnati and Louisville.

CAPTAIN DAVIDSON, President of the Keokuk Northern Line, has issued an order forbidding passengers, either ladies or gentlemen, to visit the pilot-house or sit in the clerk's office.

THE Shannon did not get out until noon yesterday, having been unable to get all her freight aboard on Thursday night. She had a good trip of both freight and engagements below. Jas. Whitten and Thos. Bobo are her pilots to Cincinnati.

THE Wheeling *Intelligencer* of yesterday says:—Capt. J. W. Williamson, of the steamer Mallie Ragon, is stopping at the McLure House for a few days. Godfrey Muhleman has charge of the Ragan in Captain Williamson's absence.

THE contract has been let for building a low water boat for the Gallipolis and Syracuse trade. She is to be one hundred and five feet long, and to be completed by the 20th of July. Messrs. Enos, Hill & Co., Gallipolis, will furnish the machinery.

THE Mollie Ebert from St. Louis, and Kittie Hegler from Cincinnati, are due here to-day. The Ebert will at once commence loading for Cincinnati and Louisville, and, as will be seen by card, she is announced to take her departure on Tuesday next.

ST. LOUIS wants to build up a trade with Cumberland and Tennessee Rivers. Pittsburgh in former years had a good trade with Nashville and other points on the Cumberland, but the railroads have diverted it to other points; as regards the Tennessee River, we never had much business.

A DISPATCH from Louisville says:—The run of coal since April 17 sums up, 11 towboats from Pittsburgh with 21 boats and 10 barges. Shipments, a few days ago, to 20 barges. Stock in the first towboats, 43 boats and 155 barges above the falls, 4 boats below the falls, with 17 boats of coal for sale.

THE machinery of the towboat Albion, sunk by the ice last winter, is to be put upon a new boat, the hull of which arrived at Wheeling from Brownsville, Pa., on Sunday. The new boat owned by J. Millan, Morris & Heatherton, is one hundred and twenty feet long, four feet depth of hold and twenty-four feet beam.

YESTERDAY'S Cincinnati *Commercial* says: Captain James Paul, last evening, sold a portion of his interest in the Thompson Dean to the other owners of the boat and Captain W. B. Miller, late of the Ben. Franklin. Captain Miller took command of the Dean at once, and will depart with her for New Orleans on Saturday.... The Jno. L. Rhoads at St. Louis has part of a cargo of ore, clay and miscellaneous freight engaged. She leaves for Pittsburgh on Saturday.

ST. LOUIS advices, under date of the 28th, report as follows:—Rates to New Orleans will be advanced to-morrow to 25c for flour and 12½c for pound freights. Several boats are about to load at these figures, but will not come on berth. The Great Republic and a fleet of barges are receiving. The river is still rising, and it is thought the flood coming down the Missouri will cause a swell of 3 feet more here. This will not imperil the southern plantations. Business moderately active. Bob Speed, of the Grand Tower Line, and J. B. Jones, Memphis, is in the city, and returns home to-morrow. He speaks discouragingly of business along the lower river. The Joseph M. Chambers, Jo. LaBarge's new boat, leaves for Benton to-morrow morning, with 250 tons of freight aboard. The John F. Toole left for New Orleans loaded flat.

HOME NEWS.

Gen. Sherman's Book.

The memoirs of Gen. Wm. T. Sherman, which will be published May 15, by Messrs. D. Appleton & Co., will be one of *the* books of the season. From the advance sheets an idea is gained of its general character. It is written in a straightforward vivacious style, and will on that account be popular with the masses. Then it gives glimpses of the war, fresh and suggestive, which will make it very valuable as a history. And lastly, to all who would thoroughly understand some of the great movements which brought such military glory to our arms, it will be invaluable. Its appearance is therefore looked to with great interest by the reading public.

Board of Health.

Messrs. McCann, Asdale, Graham, Arthurs, and Backofen were present at the special meeting of the Board of Health last night, called for the purpose of considering proposed changes in the plans for a new hospital in the Thirteenth ward, such as having the inside of the hospital and dwelling plastered instead of lined with felt paper, etc. On motion of Dr. Arthurs, Messrs. McKain and Kimball, the contractors for the buildings, were directed to plaster the interior of them, also to line the basements with boards and alter the windows so as to admit of better ventilation. These alterations will cost $413 additional. The contract for two heaters, one in each building, was awarded to John M. Patterson at $175 each. After attending to other business of no special importance, the Board adjourned.

Suits for Alleged Slander.

A suit for alleged slander was begun in the Common Pleas Court No. 2 yesterday by Mary E. Barland vs. John Norris et ux. The offense was committed, as plaintiff avers, on the 4th day of July, 1874. A summons was issued. A like action was also brought against the same parties by William C. Demerst and wife in right of the latter, in which a summons was served.

A similar action was brought in the same Court by Margaret Collins, by her father and next friend Thomas Collins, against John Criggans et. ux. The alleged slander, as is set forth in the petition, consisted in the defendant's saying that the plaintiff had stolen five pairs of window curtains out of one Mr. O'Neil's house, which it is claimed, has been of great injury to the good name and reputation of said plaintiff. The amount of damages claimed is $5,000. A summons was issued.

THE CLARK-McCULLY BOND.

The Jury Returns a Verdict for the Plaintiff.

The jury in the "Friendship Bond" case returned a sealed verdict yesterday morning in favor of the plaintiff, Mr. Robert D. Clark. A large crowd was present at the opening of Court, eager to hear the result. It is understood that a ballot was taken by the jury shortly after retirement at ten o'clock Thursday morning, when it appeared that eight were in favor of a verdict for the plaintiff and four for the defendants. In the early part of the afternoon a second ballot was taken, resulting in a vote of ten for the plaintiff and two for the defandants. The last ballot, we understand, was the third, when the jury were unanimous for the plaintiff. It is said the case will now be taken to the Supreme Court, and that tribunal will be asked to review the proceedings of the Court below.

CAPTURED.

An Alleged Burglar Safely Lodged in Jail

During yesterday afternoon, ex-Chief of Police Clark, of Allegheny, assisted by Officer Gabby, both of whom are now connected with Alderman McKelvey's office, succeeded in arresting a young man named Patrick Coll, on a charge of having committed the burglary on Tuesday night in C. A. Brown's gents furnishing store, at the corner of Park Way and Federal street. They arrested him on Spring alley, in this city, and at once took him before Alderman McKelvey, where Clark had preferred a charge of burglary against him. The Alderman committed him to jail for a hearing. Officer Clark is fully satisfied that he has got the right party, and he thinks that before he is through with this young man he will be able to prove that he is the party who has been committing the burglaries in Allegheny during the past few months.

AMUSEMENTS.

Pittsburgh Opera House.

"The Color Guard" will have its last two presentations to-day; this afternoon and evening. It has had a fairly successful week and afforded entertainment to many, and those who are of a martial disposition will enjoy its mimic battles and particularly the skillful, well executed evolutions of the Heath Zovaves, one of the best drilled companies in the United States.

Next week Frank Frayne appears in "Si Slocum," a border drama.

"Know Thyself."

Prof. O. S. Fowler, the greatest of living phrenologists, will give two of his entertaining and highly instructive lectures on Monday and Wednesday evenings next week. He will also be at the Monongahela House, where all who wish to avail themselves of the opportunity to thoroughly know themselves will have that privilege. Prof. Fowler stands at the head of his profession, and his portrayals of the character and capacities of individuals are not mere guess work, but are the results of a scientific investigation into the principles of phrenology. This may be the last opportunity that will ever be given to get the benefit of his knowledge, and those who would make the best of themselves should avail themselves of it.

Trimble's Varieties.

The Praeger family, Snow Bros., and their performing dogs, Minnie Lee and other stars still hold the boards at this theatre. A matinee will be given at two o'clock this afternoon, and to-night another performance will take place, and at both, an attractive programme will be presented. The large attendance at this place of amusement during the past week, shows that the performances have been duly appreciated.

Germania Orchestra.

The tenth of the Germania Orchestra concerts attracted an audience yesterday afternoon which was fully as large as any previous ones and every whit as enjoyable. Owing to want of space we can refer but briefly to it this morning.

MISCELLANEOUS.

MR. J. L. TOOLE had a fair audience at Library Hall, last evening, on the occasion of his farewell benefit, not so large a one, however, as his superior merits deserved. The performance was excellent throughout and those present were unsparing in their applause. Mr. Toole makes his last appearance in Pittsburgh at the matinee this afternoon.

MRS. SARAH J. CONWAY, the well-known actress, who died in Brooklyn on Thursday, was the daughter of a clergyman, of Stanford, Conn. Her maiden name was Sarah J. Crocker, and she was a sister of Mrs. D. P. Bowers, one of the most noted actresses on the stage at present. She was a widow of B. F. Conway, a leading actor and manager, who died in September last. She leaves two young daughters, both promising actresses, and a young son. Mrs. Conway was about forty years of age.

THIRTEENTH WARD REPUBLICANS.

Meeting of the Republican Club Last Night—Resolutions Adopted.

A meeting of the Republican Club of the Thirteenth ward was held last night at their rooms on the corner of Webster avenue and Kirkpatrick street, for the purpose of passing resolutions in regard to the action of the Republican County Executive Committee, which met at the Lincoln club rooms on Tuesday, to elect candidates to the State Convention which meets at Lancaster next month.

On coming together, an organization was affected by calling Mr. Henry Metzgar to the chair, who proceeded to state the object of the meeting, and spoke of the dissatisfaction existing in regard to the selection of delegates to the State convention.

A committee on resolutions was appointed, consisting of the following gentlemen: P. K. Wahlter, N. S. Smith, Alonzo Earley, John A. Hunter and Edward Taylor.

The committee presented the following, which was unanimously adopted:

WHEREAS, At a meeting of the Tax Collectors and other servants and employes of the City Hall patriots, held under a call for a meeting of the Republican County Executive Committee, at Lincoln Club Rooms, on the 27th inst., a printed programme was presented and religiously adhered to by the aforesaid classes, who were in the majority; and

WHEREAS, We are of the large majority who do not believe that there is any special act of Assembly that locates the brains and wisdom of the people of Allegheny county in the heads of a few City Hall employes, and as a consequence of this unbelief, we are opposed to the aforesaid gentlemen selecting delegates to the State or any Convention for us, at least until our rights as voters are so abridged as to compel us to obtain and vote such tickets as they may approve; therefore, be it

Resolved, That we ignore the action of the tax collectors and City Hall employes, and hold a primary election for delegates to a Convention, to select delegates to the State Convention on Saturday, May 15th, between the hours of 4 and 7 o'clock, P. M.

Resolved, That we request other districts to co-operate with us in condemning and resisting this important assumption of power, to act for the thousands of voters of the county of Allegheny.

Resolved, That to our members and the members of the County Committee from other districts who could not be coaxed, frightened or whipped into support of the printed programme, we extend our thanks and express our admiration for the back bone and good judgment displayed in their opposition.

After adopting the above as the sense of the club, the meeting adjourned to assemble in the same place in one week.

AMONG THE CHURCHES.

Brief Notes of Matters Personal and Otherwise.

REV. JOHN COIL, formerly of this city, but now of Leetonia, is just recovering from a very severe attack of typhoid fever.

THE Baptists at Fairoaks, P. Ft. W. & C. R. R., have collected enough there and in the city here to build a neat chapel this season.

COMMUNION services will be held to-morrow morning in St. Peter's Episcopal church, conducted by the pastor, Rev. Dr. Spalding.

LUTHERAN Church, corner Stockton avenue, Allegheny, Rev. J. G. Goetman, pastor. Services at 10½ A. M., and 7½ P. M. to-morrow.

REV. JOHN GILLESPIE, pastor of the East Liberty Presbyterian church, in this city, returns from Virginia this week, greatly refreshed and invigorated.

REV. W. P. MOORE, of Allegheny, preached the sermon at the installation of Rev. W. S. Fulton as pastor of the Oil City Presbyterian church this week.

IN THE Seventh Presbyterian church of this city, of which Rev. F. R. Senour is pastor, an addition of over twenty-five has been lately made to the membership.

REV. DR. WALLACE suffered a severe loss in the burning of his dwelling and its contents, even to his library and manuscripts, on Saturday morning, the 17th inst.

SERVICES to-morrow, Sabbath, in the First R. P. Church, corner Sandusky and South Diamond street, Allegheny, by the Rev. John Alford, at 10:30 A. M., and 2:30 P. M.

THE Presbyterian church at Wilkinsburg, Rev S. M. Henderson, has received an accession of nearly thirty, as the result of the work of grace in progress there for some time.

REV. S. E. MCKITTERICK, pastor-elect of the Third U. P. church, Allegheny, will conduct the services in that church to-morrow. It is expected that he will be installed before long.

THE Reformed Presbyterian church, on Eighth street, this city, Rev. A. M. Milligan pastor, held their regular communion on last Sabbath, upon which occasion twenty-eight new members were admitted.

SERVICES in the Grace Memorial Presbyterian church, Arthur street, this city, to-morrow morning and evening. The pastor, Rev. W. H. Thomas, will preach in the evening on "The Joy of the Angels."

REV. JOS. KING, pastor of the First Christian Church, corner of Arch street and Montgomery ave., Allegheny, lectures again to-morrow evening on "Primitive Christianity, and the Bible an all-sufficient Creed."

AN adjourned ministers meeting will be held at the Alliance Rooms, corner Penn and Sixth streets, on Wednesday next, at 11 o'clock, A. M., to conclude arrangements for the coming National Temperance Convention.

SUNDAY SCHOOL teachers are invited to the noon meeting to-day at the Y. M. C. A. Rooms. Lesson, "The Death of Samson." J. F. Robinson will lead the meeting. Meeting commences at 12 M. and continues 45 minutes."

"THE DEATH OF SAMSON" Judges 16. 25:31, is the lesson for the Sabbath School at the Alliance Rooms, corner of Penn avenue and Sixth street, at 1 o'clock, P. M., to-morrow. Temperance meeting at 3 o'clock in the same place.

THE Rev. R. W. Pearson, D. D., will preach morning and evening in the Fourth Avenue Baptist church. Morning sermon on "Threads of Silver in Clouds of Gloom." Evening discourse, in connection with recent strikes and impending industrial troubles, "Employers and Employed; Breakers Ahead!"

ST. CYPRIAN'S Mission, 52 Wylie street, Holy Communion during the morning service to-morrow. Preaching by the Rector, Rev. Wm. Floyd, at 3 P. M. Confirmation service will be held by the Rt. Rev. Bishop of the diocese. The Mission choir will be assisted by the choir of St. Mark's Episcopal Church, South Side.

WE are requested to say that we were misinformed in the statement that Rev. Alexander Young was elected Professor of Biblical Literature and Apologetics in the U. P. Theological Seminary at Xenia, Ohio. He was unanimously *nominated* for the Professorship. The *election* lies with the Synods which supports the Seminary.

ON a recent Sunday thirty-two, of thirty-five on probation, were received into full membership in Christ M. E. church, Rev. Dr. B. F. Brooke, pastor. Sabbath week the congregation, after an appropriate presentation of the wants of the Sunday-school connected with the charge, gave very cheerfully over five hundred dollars for its use.

THERE will be a sermon by Rev. Wm. Collier, D. D., followed by the Lord's Supper, at the First Methodist church, Fifth avenue, Pittsburgh, on to-morrow morning. Preaching at night by Rev. Alexander Clark. The pastor, Rev. Dr. Murray, expects to preach, morning and night, to Rev. Mr. Westfall's congregation at Beaver Falls.

THE Christian Union at Bellefield has instituted a course of free lectures delivered in the Presbyterian church in that pleasant portion of the Fourteenth ward. Major Moreland delivered a lecture last Thursday evening on Thomas Babington Macaulay. On Thursday, the 13th of May, the next lecture of the course will be delivered by A. W. Foster, on "American Politics."

TO-MORROW, Sunday afternoon, the Hazelwood Presbyterian Sabbath school will hold its annual anniversary celebration, on which occasion the whole congregation and friends of the school are expected to be present. Among the speakers likely to be in attendance will be Dr. Alex. Clark, Rev. Mr. Holland, Mr. Orr, of the Y. M. C. A., and other members of that association.

THE Rev. A. W. Butts, of the Smithfield street M. E. church, has been granted a vacation by his congregation—indefinite period—owing to the illness of his wife, who is now at New Waterford, Ohio. The pulpit will be supplied to-morrow morning by Rev. I. C. Pershing, DD., who will administer the communion, assisted by the Rev. Dr. Joseph Horner. In the evening Rev. J. Vannote will preach.

IT is proposed that the committee appointed by the Pittsburgh Conference, at its recent session, to consider questions relating to a division of the Conference, shall hold a meeting for that purpose on Tuesday, May 11th, at 10½ A. M. The reason for selecting this time is to give the members of the committee an opportunity to attend the National Temperance Convention to be held in this city May 12th.

SEVENTY-EIGHT Presbyteries of the Presbyterian church have voted on the overture in relation to rotation in the Eldership. The vote in the Presbytery of Rock River was a tie. As now reported, 56 Presbyteries have voted in the affirmative, and 21 in the negative. At present it is by no means certain that the overture has carried, notwithstanding the large vote in its favor, since a majority of Presbyteries—88—must vote for it.

THE regular quarterly communion services took place in the Fifth U. P. church, Allegheny, on last Sabbath, on which occasion some twenty-five or thirty new members were taken in, including eleven by profession of faith,—all but one—out of the Sabbath school connected with this church. The pastor, Rev. J. W. Witherspoon, was assisted by Rev. Mr. Sharp, of Raccoon Presbytery. Services in this church to-morrow at the usual hours, 10½ A. M. and 3 P. M.

THE friends of Dr. J. M. Thoburn in this country, and they are many, were gratified to learn, some time ago, that they might expect a visit from him soon. It was understood that he was returning to arrange for the education of his son. The latest report, however, is that he will not return at this time, for the reason that the pressing demands of the work in Calcutta, where he is superintending the erection of a large ernacle for his congregation, will not justify his absence at present.

A MEETING of the Church Extension Board of the M. E. Church will be held at the Methodist Episcopal Church rooms, 131 Smithfield street, Tuesday, May 11th, at 10½ A. M. Members of the Board are as follows: J. W. Baker, chairman, A. W. Butts, R. T. Miller, J. Horner, and Charles Hare, officers, and the following managers: S. P. Woolf, S. F. Minor, A. Bradley, J. W. F. White, W. B. Lindsay, J. A. Wood. All the members are requested to be present.

THE Communion of the Lord's Supper will be dispensed to-morrow in the Wylie avenue church, Rev. W. H. Knox, pastor. In the morning at 10½ o'clock there will be a sermon by the pastor. In the afternoon at 3 o'clock an address suitable to the occasion will be made by the Rev. John S. Sands, who will also assist the pastor in dispensing of the sacred emblems. The closing service will be held in the evening at 7½ o'clock, when the Rev. Thomas H. Hanna, of the Second church, will preach a sermon.

THERE will be regular services in the North Avenue M. E. Church, Allegheny, to-morrow morning and evening—the pastor preaching on both occasions. In the afternoon, commencing at two o'clock, the Ninth Anniversary meeting of the Sunday School will be held. The programme, as arranged, embraces music from the church choir and the school, a report from the officers, and brief addresses by the Rev. Dr. B. F. Brooke, of Christ M. E. Church, Rev. Dr. I. C. Pershing, of the Pittsburgh Female College, and the pastor, Rev. E. B. Snyder.

A REGULAR meeting of the Convocation of the Brownsville Deanery was held in Trinity church, Washington, Pa., on the 31st of March and the 1st of April. Sermons were preached by the Bishop of the Diocese, the Rev. R. S. Smith, Dean, and the Rev. H. E. Hayden; the Holy Communion being celebrated by the Bishop. The usual reports upon church progress and mission work were made. Several topics of interest were discussed by the clergy present. At the concluding service, on the evening of April 1st, the rector, the Rev. J. K. Menenhall, presented twelve persons for confirmation.

THE "Jubilee" will be commenced in Catholic Churches to-day. It is held every twenty five years, and is for the purpose of praying for the spiritual and temporal welfare of the Holy Father, Pope Pius the Ninth, and also to pray for the conversion of heretics. It will begin on Saturday, May 1, and continue for fifteen days. The faithful, to gain a plenary indulgence, must visit four churches once a day during the continuance of the jubilee. The following are the churches: St. John's, St. Michael's, St. Peter's and St. Paul's Cathedral. The services will consist of two masses daily, the first by Rev. Donnelly and the second by Rev. Pollard. In the evenings there will be a sermon and benediction.

THE receipts for the month ending April 11th, by the Board of Church Extension of the Presbyterian church were: Presbyteries, $562 50; congregations, $221 50; loan fund, $250; Sabbath schools, $32; individuals, $4; total, $1,075; payments, $2,287. In addition to the above, special contributions were reported: Sabbath-schools of First and Second Churches, Allegheny, to Port Huron, $150; Sabbath-schools of Rock Island, $126 68; individuals for same $374 05. The First and Second Churches, Pittsburgh have shown their continued interest in the loan fund by the contribution of $250. No new work has been undertaken, as the appropriations already made will not be met by the contributions of the current year, unless prompt and liberal help is given during this month.

BOLD ROBBERY.

An Italian Girl Walks Off With a Lot of Valuables—She is Arrested and the Property Recovered.

It appears that an Italian girl made application, a few days ago, to the vender of eatables, who holds forth on the Fifth avenue side of the *Commercial* building, for a situation, representing that she was homeless and desired something to do. She was taken into the family and given work, and everything passed off satisfactorily until last night, when the strange girl walked off with a lot of jewelry and money to the amount of about $200. The police were immediately notified, who started in pursuit and succeeded in capturing their prisoner under a bed, in a house of ill repute on Third avenue. The missing property was found on her person, which was recovered.

The Reason Why—Matters of Interest to the Public.

Some persons in advertising their business make very broad assertions, not always warranted by the facts in the case. Thus we find persons asserting that they sell the only good piano or organ in the market, and that all others are but imitations, and much more to the same effect; and where all interested make equally positive assertions it is sometimes hard to distinguish tother from which, but where there is such good grounds for assuming this position as S. Hamilton, of 77 Fifth avenue, has, we certainly think he would not be true to his own interests nor to the general public, if he did not assert it, and it would certainly be to the advantage of any other dealer who may have as good grounds for the faith that is in him to publish the facts so that the public may discriminate between them and such as make unwarranted pretensions. In the first place, the piano and organ house of S. Hamilton was established over four years ago as the only *exclusively* piano and organ store west of New York. Mr. H.'s past experience having confirmed him in the belief that to do justice to his patrons who invested from $100 to $1,000 in a piano or organ deserved more attention then he who bought a five-cent Jew's harp, He therefore determined to give his whole time and attention to this exclusive business, and the result has been that to-day the house of S. Hamilton stands, and deservedly so, at the head of the music houses of Pittsburgh, being, according to the sworn business returns, nearly *one-third* greater than that of any other house in Pittsburgh, and as much as some five of the ordinary ones all thrown together, and as far as known larger than any other music house in Pennsylvania. This in itself is very satisfactory. But the most desirable consideration, and the one that commends itself most to every reader of this paper is, that owing to the extent and volume of their trade they are enabled absolutely to control the best made, the best toned, and by reason of these excellencies the most popular brands of pianos and organs made in this country, while their manner of doing business, buying strictly for cash, not 60 or 90 days but cash, gives them the lowest possible prices and discounts to be had in the trade. In addition to this their business is so thoroughly systematized that with the same number of hands they handle their large trade more easily than others who scarcely do one-half the amount of business. In the matter of rent, Mr. H.'s rent being over *two thousand dollars per annum less* than others in the same business who only do about two-thirds as much trade, you will observe in this as in everything else, the strictest economy consistent with thoroughness, is practiced with the one great object in view, viz., to give the purchaser the best possible quality of goods for the lowest possible price and on the very easiest terms of payment. That they have accomplished this to the satisfaction of the public is very evident from the character and amount of their trade, and if you need any further proof of this just call and see and hear, and we know you will buy either an Estey Cottage Organ or a Bradbury or Decker & Barnes Piano. Remember the place is S. Hamilton's, 77 Fifth avenue, Pittsburgh.

NEW DRESS GOODS.

Hugus & Hacke

have now open their last week's purchases of Dress Goods in all the popular fabrics, comprising the latest novelties in Plain and Plaid Camel's Hair, and a superb assortment of De-Beges in Plain, Striped and Plaid. Also an unlimited supply of other desirable fabrics, Alpacas, Mohairs, Brilliantines, Challies, Cashmeres and Mourning Goods of every description.

Fifth avenue and Market street.

Gas Fixtures—Hydrant Hose, &c.

The card in another column of Messrs. Weldon & Kelly, No. 147 Wood street, is a memorandum to their friends and patrons, that now as heretofore, their establishment is supplied with a full and complete assortment of all goods in their line, and offering inducements to purchasers rarely equaled by any house of its class either East or West.

And indeed we may say that parties who buy of their goods in the Eastern markets, waste their time and money, as the general excellence of their goods, their elaborate workmanship, their beauty of style and finish, and their reasonableness of price, all combine to make them preferable to a purchase in any other market whatever. They are also agents for many useful improvements, among which is one that should be examined by every one who prefers comfort, cleanliness and economy to their opposites. This is the celebrated Boynton Heater which has become so famous in the East.

Messrs. Watt, Lang & Co.

By reference to our advertising columns, the many friends and patrons of the time-honored and reputable establishment of Messrs. Watt, Lang & Co., 172 and 174 Wood street, will be pleased to learn that the firm name so familiar, and so long associated with all that was excellent in quality of goods and honesty and fair dealing, is still to be preserved by the accession to the firm of Mr. John W. Watt, who possesses every agreeable business requisite, as also the natural qualities of energy, activity and affability of manner. Mr. Lang still remains a member of the firm—and is so well known that commendation is unnecessary and superfluous. That the new firm must be eminently successful (as was the old) is but to affirm that worth and merit must meet with public favor and patronage. Pleasure and profit must ever result to those who may favor this house with their orders.

Pure Grated Horseradish.

This condiment is often made from turnips, and nearly everything else, whether eatable or wearable, is counterfeited, but the boots and shoes of R. Taggart, 129 Federal street, Allegheny, have neither false soles, paper soles, or soles filled in with wood and rubbish, as are many of the boots and shoes which are sold cheap in the endeavor to compete with his low prices. His cheapness has a solid foundation. Purchases of immense quantities, cash in hand the moment the goods are purchased, and no bad debts in retailing to his customers, enable him to sell at a figure which not one house in ten can possibly reach.

Ham and Eggs, Fish, &c.

The greasy dish of ham and eggs is sure to be followed by biliousness, indigestion, and eventually dyspepsia. Beef, mutton and other meats are very little better. Nothing will so repair the waste and decay of the system and renew the life powers as the constant eating of fish. Two-thirds of the nervous system is phosphorus, and this is the essential ingredient of fish. Fresh fish of every variety, and as pure as their native element, are always to be had at the stall of B. Pulpress, No. 45 Diamond Market. Retail dealers supplied in all quantities at the very lowest prices. Orders from the country filled with promptness and dispatch.

An Offer for the Million.

There is now offered by Mr. B. Tiegel, at No. 53 Smithfield street, a large and complete assortment of new and fashionable piece goods for spring and summer wear. Who ever knew Tiegel to have on his counters a piece of inferior cloth, or a pattern of a "played-out" style? He keeps the best materials and makes them up in excellent style. If Tiegel can't suit you, then a free lunch is at your service. Go and make his acquaintance and be happy.

THE GREAT OIL COMBINATION.

Partial Revival of the Famous "South Imp." Company—What the Central Association Proposes to do—An Effort Making to Control the Oil Trade of the United States—How it is to be Done—The Transportation Problem.

For several weeks past rumors have been current of the organization of an extensive oil combination, but owing to the veil of secrecy with which the matter has been enveloped very little regarding it has reached the public ear. Indeed outside of oil circles it may be said that comparatively nothing is known. Hints have been sparsely dropped here and there, but they were so indefinite as to leave a seeker for knowledge as much in the dark as ever, but at the same time convey the impression that a thorough investigation of the subject would reveal something tangible. A GAZETTE reporter started out on a probing tour yesterday afternoon and returned to the office with enough information to enable the public to shape a fair idea of the proposed combination and understand what the object of it is. Only the more salient features of the organization and its purposes can now be given, as the details will probably not become public until after it is in working order, should it reach that point.

WHAT IT IS.

The projected combination is in fact a vast and comprehensive joint stock company, known as the Central Association, and is in some respects similar to the old South Improvement Company, against which the producers organized an opposition so formidable as to extinguish it. The idea of forming the Central Association originated in New York city, and the company is organized in accordance with the laws of the State of New York. The firms prominently mentioned in connection with it are Vandergrift & Forman, of New York, the Standard Oil Company, of Cleveland, Rockfeller, of Cleveland, and Warden, Frew & Co., of this city. Mr. Forman, of the first mentioned firm, was in the city last week conferring with our refiners regarding the Association, and we understand that he is now in Cleveland on the same errand.

Those who favor the proposed company claim that its object is to add strength to the trade and to control the market in all the oil centers of the United States. In order to accomplish this purpose it is necessary that a large proportion of the refiners in Pittsburgh, Cleveland, New York, Philadelphia, Titusville, Baltimore, and the towns of the oil region should join the company, and all the influence and arguments of the originators of the scheme are being brought to bear for the purpose of inducing them to do so. Our informant stated that it is the desire to have every refinery in the country unite their fortunes with the combination, and that none, no matter how small their capacity, will be ignored or refused permission to join. "In Union there is strength" is the principle upon which this matter is being worked and it is the object to unite all the refineries in one grand whole and control prices.

HOW IT IS TO BE DONE.

The Central Association will be managed by an Executive Committee, which shall control the purchase and sale of crude and refined oil, and the action of which in all cases is to be binding upon the refineries. The Association is to lease the refineries, for the nominal price of one dollar, and the owners thereof are to become possessors of a certain amount of the stock of the company. It is distinctly stipulated in the lease that the refineries are to work by allotment, that is, they are to use just so much crude oil as the Executive Committee may allot them for manufacture, and no more. In the event of a refinery violating the lease, it can be cancelled by a four fifths vote of the Executive Committee. The article of agreement provides that the Association, the party of the first part, shall act as the agent to buy all crude and sell all refined oil for the refinery, the party of the second part, and the latter agrees to make no purchases or sales other than such as shall be made by the Association under the power and authority of the contract; it is further stipulated that should the refiner engage in buying and selling oil it shall be under the direction of the Association. In all purchases and sales made by the Association the refiner is entitled to participate in the proportion the number of shares of stock held by him bears to the whole stock. The average prices of purchases and sales are to be ascertained by the Executive Committee upon the first Wednesday of every month, and if it is learned that during the preceding month any member of the company has paid for crude oil less than the average price, he shall pay to the Association the difference between the two; and if he shall have sold refined oil for more then the average price, the same rule is to work. In averaging purchases the net cost of delivery is to be added to the actual cost. The contract also sets forth that the refiner shall report daily all purchases and sales made by him, and that his books shall always be open for inspection by the Executive Committee or its agent.

THE FREIGHT QUESTION.

The Association is authorized to negotiate all railroad and pipe line freights and transportation expenses, and its action in this regard is to be binding upon all. It is further provided, in addition to all that is enumerated above, that all purchases and sales authorized by the Association shall be so made, and that all purchases and sales made by the Association shall be binding. In lieu of the arrangement for allotment, which may be set aside by the unanimous vote of the Executive Committee, the Association is empowered to require the payment from the refiner of a certain sum per gallon of manufactured oil, but said sum not to be less than one-half cent.

The above is the substance of the article of agreement between the refiner and the Association, and gives a fair idea of what an immense power will be wielded by the latter and how it proposes to operate. The question of allotment is doubtless fully understood by the reader. For instance if a refinery has a capacity of 700 barrels per day the Association, as we understand it, can allot it that many barrels as its daily production, or can curtail the number, with the understanding, of course, that a proportionate curtailment is made in the capacity of all the other refineries.

NEGOTIATIONS IN PROGRESS.

Regarding the arrangement of freight rates with the railroad companies our reporter could learn nothing definite. He understood that no agreement had yet been entered into, but that negotiations are now in progress. As is well known, Cleveland refineries, owing to the discrimination made in their favor, are enabled to transport oil to the seaboard cheaper than Pittsburgh can. It is anticipated that the Central Association will succeed in procuring such an equalization of freight rates that no city will have an advantage over another.

It is estimated that seven-eighths of all the refiners in the United States will join the Association, but the estimate is from an interested party. Many of the Pittsburgh oil men are in favor of it, and others opposed, the latter being seconded by a large majority of producers who fear additional depression in the price of the crude material. It is alleged, however, that the method of allotment already noted will have the effect of decreasing the refining of oil to the extent of from three to five thousand barrels per day, and if that should prove the case the natural effect of it would seem to be to increase the price of crude. It is claimed that the Central Association will cause a somewhat similar combination among producers.

NINETY PER CENT. INVOLVED.

Regarding this combination, the New York *Tribune* of Thursday says: "The oil trade is agitated by the formation of an extensive combination, which is said to involve already ninety per cent. of the refiners. The friends of the movement declare that its object is only to strengthen the trade, and, by maintaining reasonable rates, to prevent the sharp fluctuations which have proved disastrous. Opponents of the combination denounce objectionable arrangements with railroads which they declare are to be made, and claim that a perilous monopoly is proposed which will crush out the smaller men and companies in the oil business. In the present temper of the public every such trade combination is looked upon with suspicion, however just may be its motive."

A PRODUCERS VIEW.

A correspondent signing himself "A Producer" writes thus to the Oil City *Derrick* concerning the new oil ring: "The Refiners' Association appears to be agitating the minds of the producers to a great extent and has an important effect upon the oil market. While I do not look upon it without some alarm, I cannot blame the refiners for their action. The Association is such a one as every business man should seek to organize in his trade for mutual benefit and protection. As I understand it, the refiners are organizing in order that they may pursue their business with some profit. They have been conducting a losing trade for several years and have been gradually losing money. Their product was selling at a ruinous figure. There was scarcely any margin between the raw material and the manufactured article. To remedy this the refiners have combined to make their business more profitable. Their action is merely a business one, and were we not the ones who will suffer by it, I think we would look upon it in a different light. But there is food for thought for the producers in the action taken by the refiners. If the refining interests combine to make a profitable margin between the price of crude and refined it will result in either forcing the price of refined up or that of crude down. At present it seems as if the latter was to be the result. In this case the producers must meet combination by combination. They must organize and demand a profitable price for their crude product. They are at the source of the business, and with an organization as effective as that of the refiners would be able to control the price of oil. Thus the Association may be able to prove a benefit to Oildom by forcing producers into an organization of their own, and learning them the lesson, which they seem to have forgotten, that in union there is strength."

What the Nervous Require.

What the nervous require more than anything else is invigoration. Sedatives alone will not cure nervousness. The reason that the nerves are so susceptible is that they are weak. Compensate for this deficiency of strength, and over acute nervous sensibility disappears. The most rational, wholesome, and agreeable tonic is Hostetter's Stomach Bitters. Medical men recommend its use for the cure of general debility, knowing it to possess strength-giving properties of the highest order, and at the same time to be a means of reforming those bodily irregularities which induce nervousness and loss of vigor. It is the best known for dyspepsia, whether nervous or billous, and is powerfully conservative of a regular habit of body. As it is notorious that those who are afflicted with weak nerves, biliousness or constipation, are peculiarly liable to the influence of malaria, it is invaluable to such persons on account of its preventive efficacy. It endows the body with health, and the mind with cheerfulness.

VEGETINE

The Great Health Restorer, Made from BARKS, ROOTS AND HERBS.

General Debility.

In this complaint the good effects of the VEGETINE are realized immediately after commencing to take it; as debility denotes deficiency of the blood, and VEGETINE acts directly upon the blood. There is no remedy that will restore the health from debility like the VEGETINE. It is nourishing and strengthening, purifies the blood, regulates the bowels, quiets the nervous system, acts directly upon the secretions, and arouses the whole system to action. It has never failed in this complaint.

WHAT IS NEEDED.

BOSTON, Feb. 13, 1871.

H. R. STEVENS, Esq.:—

Dear Sir—About one year since I found myself in a feeble condition from general debility. VEGETINE was strongly recommended to me by a friend who had been much benefited by its use. I procured the article, and, after using several bottles, was restored to health, and discontinued its use. I feel quite confident that there is no medicine superior to it for those complaints for which it is especially prepared; and would cheerfully recommend it to those who feel that they need something to restore them to perfect health.

Respectfully yours,
U. L. PETTINGILL,
Firm of S. M. Pettingill & Co.,
No. 10 State street.

All Diseases of the Blood.

If VEGETINE will relieve pain, cleanse, purify and cure such diseases, restoring the patient to perfect health after trying different physicians, many remedies, suffering for years, is it not conclusive proof, if you are a sufferer, you can be cured? Why is this medicine performing such great cures? It works on the blood, in the circulating fluid. It can truly be called the Great Blood Purifier. The great source of disease originates in the blood; and no medicine that does not act directly upon it, to purify and renovate, has any just claim upon public attention.

NECROSIS, SCROFULA, DYSPEPSIA, GENERAL DEBILITY, CANKER HUMOR, LIVER COMPLAINT, RHEUMATISM, CONSUMPTION OF THE BOWELS.

CHARLESTOWN, Mass., March 25, 1869.

MR. H. R. STEVENS:

Dear Sir—The following is a statement of my experience with the great Blood Remedy, VEGETINE. I have been keeping a boarding house here for many years, and have had the misfortune to have a great deal of sickness in my family. In one case in particular I noticed the wonderful effect of VEGETINE.

About the year 1847 a young man, then 16 years old, who was a distant relative of mine, came home from sea. He had injured his left leg on board the ship some months before, and when the ship came into this port he came to my house, being so feeble that he could not go to his home in Lowell. His leg was swollen above the knee more than twice its natural size, and he was obliged to drag it along after him, having no use of it whatever. The effect of this had reduced him to a mere skeleton. His father came down and employed Dr. George Hayward, of Boston, to attend him, who then occupied a prominent position in the Massachusetts General Hospital. He pronounced it a bad case of Necrosis; said he must be removed to the hospital, have his leg opened and the bone bored, to allow the discharge of matter there collected; otherwise the leg must be amputated.

Not thinking it advisable to pursue this course, and having used VEGETINE, the Great Blood Remedy, in the past with so good effect, concluded to try it in this case. After taking it regularly for six weeks, his leg was but little swollen, and his general health so much improved that he did not look like the same person. At the end of five months he went home to Lowell perfectly cured. He remained in Lowell until the commencement of the war; then joined the army and was pronounced a sound and well man.

The above is but one case out of the many where I have seen this Blood Remedy used with unparalleled success. I have taken it myself for twenty years, more or less, for Dyspepsia and General Debility, and it always appeared to give me new life and vigor.

One lady boarder was completely cured from Canker Humor, after she had suffered for years, and tried almost everything else without receiving any benefit. Another lady was cured from Liver Complaint, which was a bad case, and so considered by the many physicians who had attended her from time to time.

I have known its use by other boarders for Rheumatism, with extraordinary good effect.

A lady took it for Consumption of the Bowels, and found more relief than in anything else she could procure.

I do not want to overestimate its usefulness; but I do want those suffering from sickness to know what this good medicine has done and is still doing; for I know what it is to be imposed upon when sick, and I think it is wrong for any one to overestimate a remedy at the expense of the helpless sick; and I, for one, will not do it under any circumstance whatever.

The Puddlers' Strike

Having closed, the good effect has already been felt in all classes of business. While the puddlers were out and the mills were closed, the stores on Sixth street (Late St. Clair) assumed the appearance of desertion, which might be caused by the prevalence of some dire epidemic. No sooner, however, had business been resumed and the lock-out terminated than once again the above named throughfare was crowded with pedestrians and the stores filled with customers. This fact was more noticeable in the clothing store of T. Tobias, at Big 13, than at any other establishment on Sixth street, nor could this be wondered at when it is remembered that he is selling custom and ready made clothing at cheaper rates than any other merchant tailor in the city. In proof of this we publish the following price list: Jean pants, $1; cassimere pants, $3; fine worsted suits, $10; boys' suits $5; dress suits, $15. These are but a few of the articles which Tobias is now selling at the lowest possible figure. He is in addition turning out to order the noblest suits of foreign fabric at lower prices than ever before quoted.
